Report on Currency and Finance Reserve Bank of India, 2005 *Economics of Exchange Rate Management* Devi Singh, 1986
 Evaluation of the exchange rate policy of India since 1975 Services Sector in India Arumugam Vijayakumar, 2008

ABOUT THE BOOK Since the early 1990s the growth process in India has been marked by a remarkable performance of services sector. The experience of developed countries suggests that growth of services sector followed the growth of industrial sector. However India's experience in this regard is somewhat different. The sectoral shift in favour of services sector over the last two decades has taken place in the face of an almost stagnant share of industry and a reduced share of agriculture in GDP. In fact it was the growth performance of the services sector during the 1990s which sustained the overall growth of the Indian economy particularly in times of adverse agricultural shocks and industrial slowdown. While software exports are a well known success story India is now an important venue for many tasks in services such as financial accounting, call centres, processing insurance claims and medical transcription. The future potential of growth in these areas appears to be considerable. This book explains recent policy measures by the Government of India to make India's services sector internationally competitive. The book focuses on the following services: financial services, IT and IT enabled services, retail trading services, healthcare services, insurance services, educational services, transport and communication services and tourism. It also includes a chapter on taxation of services in India.
