Use Case Driven Object Modeling with UML Theory and Practice Don Rosenberg, Matt Stephens, 2008-06-28 Use Case Driven Object Modeling with UML Theory and Practice shows how to drive an object oriented software design from use case all the way through coding and testing based on the minimalist UML based ICONIX process In addition to a comprehensive explanation of the foundations of the approach the book makes extensive use of examples and provides exercises at the back

of each chapter This book leads by example It demonstrates common analysis and design errors shows how to detect and fix them and suggests how to avoid making the same errors in the future The book also encourages you to examine its UML examples and to search for specific errors You ll get clues then later receive the answers during review sessions toward the end of the book

Model Driven Architecture Uwe Aßmann, Mehmet Aksit, Arend Rensink, 2005-08-18 Model Driven Architecture MDA is an initiative proposed by the Object Management Group OMG for platform generic software development MDA separates the specification of system functionality from the implementation on a specific platform It is aimed at making software assets more resilient to changes caused by emerging technologies While stressing the importance of modeling the MDA initiative covers a wide spectrum of research areas Further efforts are required to bring them into a coherent approach based on open standards and supported by matured tools and techniques

This volume contains the selected papers of two workshops on Model Driven Architecture Foundations and Applications MDAFA MDAFA 2003 held at the University of Twente Twente The Netherlands June 26 27 2003 and MDAFA 2004 held at Linköping University Linköping Sweden June 10 11 2004 The goal of the workshops was to understand the foundations of MDA to share experience in applying MDA techniques and tools and to outline future research directions The workshops organizers encouraged authors of accepted papers to resubmit their papers to a post workshop reviewing process 15 of these papers were accepted to appear in this volume on MDA
