*Summary of John C. Maxwell's Relationships 101* Everest Media, 2022-05-18T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Ronald Reagan was a president who was able to connect with people He was able to make anyone feel like his best friend even someone he had never met before 2 Ronald Reagan was a great president because he loved people and connected with them He understood that relationships were the glue that held his team members together and he made it a priority to build them 3 When it comes to relationships everything begins with respect You can't place value on others if you don't respect them You should show respect for others even before they have done anything to deserve it because they are human beings 4 Respect is the foundation of a good relationship but it alone is not enough You can't be relational with someone you don't know It requires shared experiences over time And that's not always easy to achieve

**The Publishers Weekly**, 2004      Winning with People John C. Maxwell, 2007-04-01 The most important characteristic that is needed to be successful in any leadership position whether it is in business, church, or your community is the ability to work with people. Relationships are at the heart of every positive human experience. John C. Maxwell, a master communicator and relational expert, makes learning about relationships accessible to everyone in *Winning With People*. Within this book, Maxwell has translated decades of experience into 25 People Principles that anyone can learn. In *Winning With People*, Maxwell divides these principles into sections based off different questions we must ask ourselves, such as: Readiness: Are we prepared for relationships? Connection: Are we willing to focus on others? Trust: Can we build mutual trust? Investment: Are we willing to invest in others? Synergy: Can we create a win-win relationship? Each section contains guiding People Principles. Some are intuitive, such as The Lens Principle: Who We Are Determines How We See Others. Others may go against your instincts, such as The Confrontation Principle: Caring for People Should Precede Confronting People. The most sophisticated leaders and salespeople will pick up on skills that will make them even better, and relational novices will learn skills that can transform them into relational dynamos.
