Atheism for Beginners Michael Palmer,2013-02-28 Hurray for Michael Palmer is how Michael Martin the distinguished American philosopher greeted Palmer s *The Atheist s Primer* Lutterworth 2012 *Atheism for Beginners* by providing a coursebook for schools and colleges differs from its predecessor in being designed specifically for teachers and their students Yet although

different in focus and format the intention remains the same to reinstate the importance of philosophy within the debate about God's existence and to act as a corrective to the largely Darwinian criticisms levelled against religious belief by Richard Dawkins and the so-called new atheists. So in Palmer's lively history of atheism extending from the ancient Greeks to the present day we meet the enduring philosophical arguments against God and the great literature in which they are expressed. *Atheism for Beginners* is user-friendly and presumes no special grounding in philosophy. Throughout assistance is given by numerous aids to learning: there are exercises, marginal notes, essay questions, bibliographies and a glossary. Also provided are fourteen short biographies of famous atheists. In these respects Palmer follows the format first presented in his widely read *Moral Problems* of 1991, long established as a core text in the teaching of philosophy. In *Atheism for Beginners* Palmer covers the main atheistic arguments, discussing issues such as creation, morality, evil, miracles and the motivations of belief. Particular attention is paid to the work of Hume, Marx, Nietzsche and Freud, with a special chapter devoted to the development of disproof of atheism. Atheism is often criticized for being unduly pessimistic: that without God there is nothing to look forward to, no life after death, no final righting of wrongs and no hope of salvation. But this, Palmer argues, is a slander against the atheistic outlook. He concludes, therefore, on a positive note explaining that happiness and personal fulfilment are to be found in the very materialism that religious belief rejects.

Atheism Victoria Lee-taverdyan, 2017-05-14 Discover Atheism is very easy to define: it is the belief that there is neither God nor the gods. From now we will just talk about belief in God, but the arguments in this book are equally applicable to the monotheistic and polytheistic religions. However, many think that atheists believe that there is no God, no morality, or that there is no God nor the meaning of life, or again, neither God nor human goodness. As we shall see, there is nothing to stop the atheist believing in morality, the meaning of life, or human goodness. Atheism is only the truly negative when it comes to believing in God. It is capable of positively looking at other aspects of life as well as any other belief. However, there is a certain point where the negativism of atheistic beliefs extends beyond God's existence. Atheist rejection of faith in God is usually accompanied by a broader rejection of any supernatural or transcendent reality. An atheist, for instance, usually doesn't believe in the existence of the immortal soul, life after death, ghosts, and supernatural forces. Although strictly speaking an atheist can believe in any of that and yet remain an atheist, reasons which will become clearer later on, arguments and ideas that support atheism naturally tend to exclude beliefs in the supernatural and fantastic. Atheism is the view contrary not only to theism and other forms of belief in God, but also to agnosticism, i.e. the exclusion of belief or disbelief in God. Agnostic argues that we cannot know whether God exists or does not exist, and is therefore the only reasonable solution to refrain from judgment. Both theists and atheists, according to agnostic beliefs, are exaggerating in claims that God exists or does not exist. We simply do not have enough arguments or evidence to justify any of these positions. The question whether people with no positive faith in God should be agnostics or atheists is really important, probably as much as the question whether to believe in God or not. Here Is A Preview Of What You'll Learn In *Atheism* a

Atheists in America Melanie E. Brewster,2014-06-03 This collection features more than two dozen narratives by atheists from different backgrounds across the United States Ranging in age race sexual orientation and religious upbringing these individuals address deconversion community building parenting and romantic relationships providing a nuanced look at living without a god in a predominantly Christian nation These narratives illuminate the complexities and consequences for nonbelievers in the United States Stepping away from religious belief can have serious social and existential ramifications forcing atheists to discover new ways to live meaningfully without a religious community Yet shedding the constraints of a formal belief system can also be a freeing experience Ultimately this volume shows that claiming an atheist identity is anything but an act isolated from the other dimensions of the self Upending common social political and psychological assumptions about atheists this collection helps carve out a more accepted space for this minority within American society

The False Dialectic Between Christians and Atheists Tom Donovan,2016 Could it be that atheism and belief in God are both forms of avoidance behavior It s easier to focus on belief than it is to take up a new practice of living Perhaps both are ideological distractions that mystify the nature of reality and what knowledge is What if we admit that we are neither believers nor atheists Does that mean we re nothing Philosophy aims to help us understand the world without appealing to something beyond It s considered to be rooted in the search for eternal truths and when the truth is unclear philosophy is expected to embrace modesty and have a willingness to say I don t know Rejecting the false dialectic of God atheism will help us recognize that the world is our construction and our responsibility so long as we are here Drawing on Georg Luk cs and Max Horkheimer the author argues that belief in God and atheism are both ideological distractions They are both forms of immaturity that can only be transcended through action The real good news is that we can do away with belief in the supernatural but it will take more than non belief it will take philosophical action He takes us on a journey through our philosophical practices to purge ourselves of mystified notions The journey is long but at least the path is strewn with the charm of Socrates Descartes Marx and Sartre In short Prof Donovan says Nothing exists but this world our world Nothing is beyond God and atheism Why not become nothing Make yourself and those who matter proud
