## with Timeline

ORIGINAL MANUSCRIPTS  
1000 BC - 100 AD

**EARLIEST COPIES**  
 Although the original Bible manuscripts are long gone, we possess handwritten copies of the Hebrew Bible from the East Century BC, and copies of the Greek Bible from the 1st Century AD.

**LATIN VULGATE**  
 St. Jerome's Latin Vulgate, the Bible translation of the Western Church, was completed in 405 AD, combining the best available Greek and Hebrew texts.

**MASORETIC TEXT**  
 The Masoretes, Jewish scribes, produced the first printed Hebrew Bible in 1488, based on the Masoretic Text. This text is the basis for many modern Hebrew Bibles.

**TEXTUS RECEPTUS**  
 The Textus Receptus, the first printed Greek Bible, was based on a limited number of manuscripts and served as the basis for many early English Bibles.

**TYNDALE BIBLE**  
 William Tyndale's English Bible, the first printed English Bible, was completed in 1525. It was based on the best available Greek and Hebrew texts.

**KING JAMES VERSION**  
 The King James Version (KJV) was completed in 1611. It was based on the Textus Receptus and other Greek manuscripts.

**REVISED STANDARD VERSION**  
 The Revised Standard Version (RSV) was completed in 1952. It was based on the best available Greek and Hebrew texts.

**SPECTRUM OF APPROACHES TO ENGLISH TRANSLATIONS**  
 The Spectrum of Approaches to English Translations chart shows the range of translation philosophies, from word-for-word to thought-for-thought.

### ORIGINALS TO ENGLISH BIBLES

**WHAT GOES INTO A BIBLE TRANSLATION?**  
 Modern Bible translations draw on large collections of the best and oldest manuscripts to form a textual tradition (Hebrew, Greek, Latin) which is then translated into English. The following table shows the sources used for various translations.

| Single Text Examples | Column One Examples | Column Two Examples |
|----------------------|---------------------|---------------------|
| Latin Vulgate        | MT                  | GNT                 |
| Textus Receptus      | MT                  | GNT                 |
| KJV                  | MT                  | GNT                 |
| RSV                  | MT                  | GNT                 |

### NUMBER OF GREEK NT MANUSCRIPTS COPIES

### Reliability of the English New Testament

The chart demonstrates that the reliability of the English New Testament comes from the large number of Greek manuscripts, especially from the first few centuries, which align closely with the original texts we can access today. The focus on manuscripts between the 12th and 15th centuries is due to European monks' careful traditions and the influx of Greek manuscripts brought by Jews from the Byzantine Empire. These manuscripts, which align with the New Testament copies made in Europe, further authenticate the reliable transmission of the New Testament across centuries. The drop in manuscripts after the 15th century is due to the invention of the printing press, which reduced the need for handwritten copies, and the growing focus on producing English versions of the New Testament.

### WHICH VERSION TO USE

**INTERPRETING BIBLE**  
 From the original text to the English translation, the Bible has a long history of interpretation.

**WORD FOR WORD**  
 This approach focuses on the literal meaning of the original text.

**THOUGHT FOR THOUGHT**  
 This approach focuses on conveying the meaning of the original text in a way that is understandable to modern readers.

**Common Ground**  
 Because the Bible was written in ancient Greek, Aramaic, and Hebrew, the meaning of many words is unclear. Translators must use their best judgment to accurately convey the original text's meaning.
