2: 9Aa Environmental variation

- sensible suggestions, such as being given the right amount of water, warmth, light, carbon dioxide, nutrients/minerals/mineral salts
- a** two from: amount of light, temperature, humidity, wind/air currents/draught
b other humans and possibly other plants and/or animals
- a** B – the tree is bent/curved; C – the apples have scabs/damaged skin; D – the person has a scar
b B – wind; C – a parasite/insect/disease; D – fire (knife or other sharp object or disease are also sensible suggestions)
- a** one of: hair length, clothing
b continuous because they can have any intermediate value between two points
- B – continuous (there are degrees of curvature); C – discontinuous (the fruit either has the disease or does not) but some students may justify continuous as being the amount of the fruit affected and this should be considered as correct; D – discontinuous (the person either has a scar or not) but again some students may justify this as continuous by taking into account the amount of scarring and this should be considered correct
- a** They are probably the same species.
b Plants that look very different from each other may not look as if they are the same species and so may be classified as two different species.
