But the authors go beyond the addition of current events and trends to focus on what these changes mean, extending the bridge between media history and the media right now.

Converging Media John Vernon Pavlik, Shawn McIntosh, 2004. *Converging Media* reflects the fundamental changes that digital technologies have made in the way people get their news and entertainment and conduct media commerce. Rather, *Converging Media* proposes that the majority of the process of mass communication is or is becoming digital. Publisher description.
