Managerial Accounting Wild 4th Edition:

Management Accounting, 4th Edition Leslie G. Eldenburg, Albie Brooks, Judy Oliver, Gillian Vesty, Rodney Dormer, Vijaya Murthy, Nick Pawsey, 2020-01-21 Eldenburg's fourth edition of Management Accounting combines the basic technical issues associated with cost management, management accounting and control with more recent and emerging themes and issues. Management Accounting is a compulsory element of the accounting major and this text is written to cover the content typically taught in the two management accounting units offered in most accounting programs. The Management Accounting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes case videos, interactive problems and questions with immediate feedback. Eldenburg's unique resource can also form the basis of a blended learning solution for lecturers.

A History of Management Accounting Richard Edwards, Trevor Boyns, 2012-11-12 There is growing interest in the history of accounting amongst both accounting practitioners and accounting academics. However, there is a lack of texts dealing with major aspects of accounting history that can be used in classrooms to inform new researchers and to provide a source of reference for established researchers. The great deal of research into cost and management accounting in Britain published in academic journals over the last twenty years, including the authors' own contributions, makes *The History of Cost and Management Accounting* an essential contribution to the field.
