Pakistan's Counterterrorism Challenge Moeed Yusuf,2014-02-18 Pakistan which since 9 11 has come to be seen as one of the world s most dangerous places and has been referred to as the epicenter of international terrorism faces an acute counterterrorism CT challenge The book focuses on violence being perpetrated against the Pakistani state by Islamist groups and how Pakistan can address these challenges concentrating not only on military aspects but on the often ignored political legal law enforcement financial and technological facets of the challenge Edited by Moeed Yusuf of the US Institute of Peace and featuring the contributions and insights of Pakistani policy

practitioners and scholars as well as international specialists with deep expertise in the region the volume explores the current debate surrounding Pakistan's ability and incentives to crack down on Islamist terrorism and provides an in-depth examination of the multiple facets of this existential threat confronting the Pakistani state and people. The book pays special attention to the non-traditional functions of force that are central to Pakistan's ability to subdue militancy but which have not received the deserved attention from the Pakistani state nor from western experts. In particular, this path-breaking volume is the first to explore these various facets holistically, focusing on the weakness of political institutions, the role of policing, criminal justice systems, choking financing for militancy, and regulating the use of media and technology by militants. Military force alone, also examined in this volume, will not solve Pakistan's Islamist challenge. With original insights and attention to detail, the authors provide a roadmap for Western and Pakistani policymakers alike to address the weaknesses in Pakistan's CT strategy.
