The Planet Construction Kit:

The Planet Construction Kit Mark Rosenfelder, 2010-10 A companion volume to the Language Construction Kit this book explains everything you need to know about creating your own world with its own geology creatures cultures religions technology and styles of war plus how to create maps illustrations and 3 D models An essential whether you're writing science fiction or fantasy designing RPGs creating movies or video games or remodeling a spare asteroid **World**

Building Marta Boni, 2025-10-01 Thanks to modern technology we are now living in an age of multiplatform fictional worlds as television film the Internet graphic novels toys and more facilitate the creation of diverse yet compact imaginary universes which are often recognisable as brands and exhibit well defined identities This volume situated at the cutting edge of media theory explores this phenomenon from both theoretical and practical perspectives uncovering how the construction of these worlds influences our own determination of values and meaning in contemporary society **China Construction Kit** Mark

Rosenfelder, 2015-10-18 An essential and very readable resource for conlangers and writers who want to create a non European world and anyone who wants to know more about our planet's leading civilization A concise but meaty overview of the history philosophy and literature of China and much more clothing architecture technology cosmology medicine cuisine and more Plus grammatical sketches of both Mandarin and Old Chinese and a discussion of the writing system The history and literature sections are written for people interested in the Chinese languages with key terms in both pinyin and hanzi

Building Imaginary Worlds Mark J.P. Wolf, 2014-03-14 Mark J P Wolf's study of imaginary worlds theorizes world building within and across media including literature comics film radio television board games video games the Internet and more Building Imaginary Worlds departs from prior approaches to imaginary worlds that focused mainly on narrative medium or genre and instead considers imaginary worlds as dynamic entities in and of themselves Wolf argues that imaginary worlds which are often transnarrative transmedial and transauthorial in nature are compelling objects of inquiry for Media Studies Chapters touch on a theoretical analysis of how world building extends beyond storytelling the engagement of the audience and the way worlds are conceptualized and experienced a history of imaginary worlds that follows their development over three millennia from the fictional islands of Homer's *Odyssey* to the present internarrative theory examining how narratives set in the same world can interact and relate to one another an examination of transmedial growth and adaptation and what happens when worlds make the jump between media an analysis of the transauthorial nature of imaginary worlds the resulting concentric circles of authorship and related topics of canonicity participatory worlds and subcreation's relationship with divine Creation Building Imaginary Worlds also provides the scholar of imaginary worlds with a glossary of terms and a detailed timeline that spans three millennia and more than 1 400 imaginary worlds listing their names creators and the works in which they first appeared Not Here, Not Now Anthony Dunne, Fiona Raby, 2025-05-06 What it means to design at

a time when for many people the future seems to have become an impossibility When reality fails us what can designers do

Question design's relationship to reality as Anthony Dunne and Fiona Raby do in this exhilarating yet thoughtful journey to the edges of science philosophy and literature to find new ways of thinking about the possible and about the meaning function and place of design in that speculative world of not here not now A conceptual travelogue of sorts Not Here Not Now brings together words images and objects that capture in design form some of the ideas encountered along the way

Itself a design experiment the richly illustrated book explores ways to bring these ideas into conversation with objects through imagined archives libraries glossaries taxonomies lists tales and essays The design responses in Not Here Not Now to a stone raft for example or a vegetable lamb swatches of imaginary colors a pocket universe in the home objects undergoing space time collapse are like the most compelling utopias impossible by design aiming instead to nourish the creative intellectual and imaginative ground from which new possibilities still unknown might begin to emerge

India Construction Kit Mark Rosenfelder, 2017-10-24 An engaging introduction to India and all of South Asia for conlanger conworlders linguists and anyone who'd like to learn more about the world It starts with the topography and history of India deals with all its major religions and goes on to cover astronomy mathematics daily life cuisine clothing and architecture In addition there are meaty grammatical sketches of Sanskrit Hindi and Tamil and a discussion of the writing systems that have been used in the subcontinent
