Basic Mathematics Serge Lang, 1971 **Understanding Numbers in Elementary School Mathematics** Hongxi Wu, 2011 This is a textbook for pre service elementary school teachers and for current teachers who are taking professional development courses By emphasizing the precision of mathematics the exposition achieves a logical and coherent account of school mathematics at the appropriate level for the readership Wu provides a comprehensive treatment of all the standard topics about numbers in the school mathematics curriculum whole numbers fractions and rational numbers Assuming no previous knowledge of mathematics the presentation develops the basic facts about numbers from the beginning and thoroughly covers the subject matter for grades K through 7 Every single assertion is established in the context of elementary school mathematics in a manner that is completely consistent with the basic requirements of mathematics While it is a textbook for pre service elementary teachers it is also a reference book that school teachers can refer to for explanations of well known but hitherto unexplained facts For example the sometimes puzzling concepts of percent ratio and rate are each given a treatment that is down to earth and devoid of mysticism The fact that a negative times a negative is a positive is explained in a leisurely and comprehensible fashion **The American Mathematical Monthly**, 1978 Includes articles as well as notes and other features about mathematics and the profession Out of the Mouths of Mathematicians: A Quotation Book for Philomaths Rosemary Schmalz, 2020-08-03 Moritz s Memorabilia Mathematica inspired this work but this one differs in that sources are limited to mathematicians of the 20th century Useful to researchers to facilitate a literature search to writers who want to emphasize or substantiate a point and to teachers students and other readers who will have their appetite for the subject whetted by the 83 quotes Book News Inc **Junior College Journal** Walter Crosby Eells, 1970 Includes Junior college directory formerly Directory of the junior college 1931 1945 *Modern Challenges to Past Philosophy* Thomas D.
