economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens. Mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives. One such alternative is provided by Marxian economics. In recent decades the field has seen tremendous theoretical development and Marxian perspectives have begun to appear in public discourse in unprecedented ways. This handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of Marxian economics. Its scope is broad ranging from contributions on familiar Marxist concepts such as value theory, the labor process, accumulation, crisis, and socialism to others not always associated with the Marxian canon like feminism, ecology, international migration, and epistemology. This breadth of coverage reflects the development of Marxian economic and social theory and encompasses both the history and the frontiers of current scholarship. This handbook provides an extensive statement of the current shape and future direction of Marxian economics. The Routledge Handbook of Marxian Economics is an invaluable resource for students, researchers, and policy makers seeking guidance in this field. It is designed to serve both as a reference work and as a supplementary text for classroom use with applications for courses in economics, sociology, political science, management, anthropology, development studies, philosophy, and history.

Being In The World, Ten years after graduating with a degree in philosophy from UC Berkeley, filmmaker Tao Ruspoli returned to visit his one time professor, world renowned philosopher Hubert Dreyfus. That visit led to meetings with a whole generation of philosophers whom Dreyfus had taught, which subsequently sparked the inspiration for this film. *Being in the World* raises the question of whether we have forgotten what it means to be truly human in today's technological age and proceeds to answer this question by taking a journey around the world to meet a whole host of remarkable individuals including Manuel Molina, the legendary poet and flamenco master, Leah Chase, affectionately known as the Queen of Creole Cuisine, and Hiroshi Sakaguchi, a master carpenter from Japan. By showing how these modern day masters approach life from within their chosen fields, Ruspoli's film celebrates the ability of human beings to find meaning in the world through the mastery of physical, intellectual, and creative skills.
