

DRG Validation vs. Clinical Validation

AUDITOR/EDUCATOR FOR BAPTIST HEALTH SYSTEM: The notification from The Insurer is labeled, "DRG Validation Worksheet." Is this denial based on coding guidelines or is it based on a clinical validation audit? If this is a clinical validation audit, The Insurer would be better served by a representative who is clinically educated and trained. This auditor, on behalf of Baptist Health System, reads the qualifications of the representative for The Insurer as RHIA, CCS. The RHIA is a professional certification administered by the American Health Information Management Association (AHIMA) and passing the exam results in licensure for health information management. Eligibility for the RHIA includes successful completion of at least a baccalaureate level degree in an accredited Health Information Management program and a passing score on the exam, offered by AHIMA. The CCS (Certified Coding Specialist) is also a certification offered by AHIMA. This level of higher education and certification is admirable, however RHIA and CCS are not clinically based.

Baptist Health System respectfully requests that, if this denial is indeed based on a clinical validation audit, The Insurer have this claim and the medical records submitted reviewed by a clinician.
