

Driver's Ed Module 1 and 2 Reflection Journal

Name: Rochanna Shaw Modules 1 & 2

Module 1: Driving is Your Responsibility:

Please answer the following questions in complete sentences using proper spelling and grammar. Complete the K-W-L information below. **K- What you Know List two things you know about driving.**

1. I know that you should always wear a seat belt
2. I know that you should be cautious of your speed limit while driving.

W—What you Want to know List two things you want to know about driving.

1. I would like to know the rules and regulations of driving.
2. I would like to know the meaning of all the different road signs.

L—What you Learned to Identify at least two new things you learned from Module One.

1. I learned that driving is a privilege.
2. I learned that the majority of teen deaths are caused by vehicle collisions. Do you already have your learners permit? No If no, have you taken the 4 hour drug/alcohol certificate? No

Module 2: The Driver: Please answer the following questions:

Aha Moments: Aha moments are times when you have been reading something and the text suddenly makes sense or becomes clear to you. Please use complete sentences and proper spelling and grammar. Describe three aha moments that you had as you worked through Module Two.

1. How will this information affect you as a driver now and in the future? (2-3 sentences)
OR If you did not have any 'aha' moments, answer the questions below in complete sentences using proper spelling and grammar: List three characteristics of 'at risk' drivers. An 'at risk' driver is drivers who do not wear seat belts.
2. An 'at risk' driver is a driver who speeds or exceeds the speeding limit.
3. An 'at risk' driver is a driver who merges when it was safer to stop.

List three characteristics of safe drivers.

- A safe driver is a driver who always wears their seat belt.
- A safe driver is a driver that scans the road to identify possible hazards ahead.
- A safe driver is a driver who uses their signal lights to a left or right turn. List three driver errors that could cause a collision.

Roman Wölfel

Drivers Ed Module 7 And 8 Reflection Journal:

Resources in Education, 1982 Reigniting Curiosity and Inquiry in Higher Education Stacey L. MacKinnon, Beth Archer-Kuhn, 2023-07-03 How do you develop students capacities as independent learners build their confidence and motivation to identify their own research agendas and facilitate their critical thinking and research skills for effectively exploring their chosen topic Inquiry based learning IBL offers a proven means to achieve these outcomes IBL is a scaffolded learner centered student led approach to inquiry whereby students progressively design and lead their own inquiry process with support from the instructor It s a powerful pedagogical approach that you can progressively adopt first adopting it as an activity in a course to develop you and your students comfort with the practice right up to developing an entire course or program utilizing IBL It offers varying levels of engagement as you and your students gain familiarity with the practice from the instructor providing structured support to formative guidance as students gain confidence to a point where students become increasingly self directed and independent and are supported by the review of student peers and validated by presentations of their work to the class This pedagogy shifts the student instructor relationship with the former leading and the latter supporting IBL is a flexible teaching and learning approach that be can progressively adopted and developed without a specific formula and that positions students as co constructors of knowledge rather than passive recipients It is student driven creates engagement develops a curiosity mindset promotes group learning that is collaborative rather than competitive fosters metacognition and builds confidence as students learn to deal with ambiguity and risk Each chapter offers personal stories vignettes examples of practice and discussions of issues This book offers higher education instructors at any career stage and in any discipline a realistic guide to incorporating curiosity and inquiry based learning into their classrooms to promote long term knowledge creation and retention and life wide learning IBL is being increasingly adopted across the English speaking world Beyond its inherent capacity to promote independent learning it offers a perfect foundation for preparing students for Signature Work and capstone courses and is adaptable to small and large classes

Becoming and Being a Physician Shmuel P. Reis, Adina L. Kalet, W. Wayne Weston, 2025-04-14 What does I am a doctor mean currently Structured around personal stories this book provides a rigorous review of current thinking and research on the physician s life cycle The book considers the trajectories and factors that influence a doctor s development over decades of a medical career Taking an integrated approach the authors consider the formal stages of a physician s training including medical school residency training and practice and review discourses around professionalism competency based education lifelong learning expertise development reflection and narrative that merge into the construct of medical professional identity formation Reflecting the dramatic changes that have occurred in the physician s role job description and reality of modern clinical practice further compounded by the pandemic this new book will support and encourage medical educators to ensure that the enduring values of the medical profession prevail **Peace Education for Violence Prevention in**

Fragile African Societies Maphosa, Sylvester B., Keasley, Alphonse, 2019-02-10 Though conflicts among African nations diminished at the end of the last millennium the need for peace remains a perennial concern for African citizens within their communities and countries Once again Maphosa and Keasley have engaged a collection of scholar practitioners to address the query What s Going to Make a Difference in Contemporary Peace Education around Africa The contributing authors draw from daily headlines as well as African literature to unearth twenty first century quandaries with which educators in formal and informal contexts are called upon to grapple The What s Going to Make a Difference authors offer insights to educators peace education practitioners and parents for everyday living The authors probe the wisdom of the recent and ancient past and bring forth pearls for contemporary moments All in discerning effort to respond to the guiding question the editors and their contributing colleagues deliver a compelling set of revelations for Making a Difference in Peace Education for African and world citizens

Engineering Education John Heywood, 2006-01-24 A synthesis of nearly 2 000 articles to help make engineers better educators While a significant body of knowledge has evolved in the field of engineering education over the years much of the published information has been restricted to scholarly journals and has not found a broad audience This publication rectifies that situation by reviewing the findings of nearly 2 000 scholarly articles to help engineers become better educators devise more effective curricula and be more effective leaders and advocates in curriculum and research development The author s first objective is to provide an illustrative review of research and development in engineering education since 1960 His second objective is with the examples given to encourage the practice of classroom assessment and research and his third objective is to promote the idea of curriculum leadership The publication is divided into four main parts Part I demonstrates how the underpinnings of education history philosophy psychology sociology determine the aims and objectives of the curriculum and the curriculum s internal structure which integrates assessment content teaching and learning Part II focuses on the curriculum itself considering such key issues as content organization trends and change A chapter on interdisciplinary and integrated study and a chapter on project and problem based models of curriculum are included Part III examines problem solving creativity and design Part IV delves into teaching assessment and evaluation beginning with a chapter on the lecture cooperative learning and teamwork The book ends with a brief insightful forecast of the future of engineering education Because this is a practical tool and reference for engineers each chapter is self contained and may be read independently of the others Unlike other works in engineering education which are generally intended for educational researchers this publication is written not only for researchers in the field of engineering education but also for all engineers who teach All readers acquire a host of practical skills and knowledge in the fields of learning philosophy sociology and history as they specifically apply to the process of engineering curriculum improvement and evaluation

Microwave Journal , 1982 **Psychology and Work Today** Carrie A. Bulger, Duane P. Schultz, Sydney Ellen Schultz, 2025-03-26 This key textbook introduces students to the field of industrial and organizational psychology explaining

how industrial organizational psychologists make work and working better It explains how industrial organizational psychologists help organizations hire the best people make work safer and less stressful and support managers and leaders to be more effective at leading others It also describes how industrial organizational psychologists work with organizations to embrace diversity in the workforce design the physical work environment to best suit employees and market their products and services to consumers Key features of this edition include Coverage of both the essential and traditional I O topic areas such as job analysis employee selection and work motivation as well as topic areas that are important in workplaces today such as stress and well being human factors and preparing for jobs of the future New or expanded coverage of teams in organizations remote hybrid work quiet quitting and diversity equity and inclusion issues A streamlined methods chapter that focuses more on specific methods used by industrial organizational psychologists such as focus groups surveys and Gallup polls Rich with various pedagogical tools and real world examples the book will be of interest to undergraduate students in introduction industrial organizational psychology or psychology of work behaviour courses
