This book explores the adaptation of children's metafiction including works such as *Inkheart* and the *Harry Potter* series. Not only are the plot devices of books and reading explored on screen in these adaptations but so is the nature of transmedial adaptation itself: the act of representing one work of art in another medium. Analysing the work done by children's metafiction and the experience of reading it, Casie E. Hermansson situates the adaptations of these types of books to film within contemporary adaptation criticism.
