**Space Cadet** Robert Heinlein,2004

**Innocent Experiments** Rebecca Onion,2016-10-04 From the 1950s to the digital age Americans have pushed their children to live science minded lives cementing scientific discovery and youthful curiosity as inseparable ideals In this multifaceted work historian Rebecca Onion examines the rise of informal children s science education in the twentieth century from the proliferation of home chemistry sets after World War I to the century long boom in child centered science museums Onion looks at how the United States has increasingly focused its energies over the last century into producing young scientists outside of the classroom She shows that although Americans profess to believe that success in the sciences is synonymous with good citizenship this idea is deeply complicated in an era when scientific data is hotly contested and many Americans have a conflicted view of science itself These contradictions Onion explains can be understood by examining the histories of popular science and the development of ideas about American childhood She shows how the idealized concept of science has moved through the public consciousness and how the drive to make child scientists has deeply influenced American culture

The Moon Maid Edgar Rice Burroughs,1923 In the late twentieth century Admiral Julian 3rd can get no rest for he knows his future He will be reborn as his grandson in the next century to journey through space and make an ominous discovery inside the moon he will live again in the dark years of the twenty second century as Julian 9th who refuses to bow down to the victorious Moon Men and as Julian 20th the fierce Red Hawk he will lead humanity s final battle against the alien invaders in the twenty fifth century
