The Spirituality of the Igbo People of Nigeria as an Example of Religious Modernization in a Global World Henry CHUKWUDI OKEKE, 2020-02-18 If there is no religion in the world the world would more or less become a jungle The world will be inhuman Religion touches all aspects of human life Identifying God's will in our world today has become a major problem for many religions of the world In the past in Igbo Traditional Religion human sacrifice as well as the killing of twins were practised For the Igbo traditionalists then that was the will of the deities and equally not

against God's will. But following the encounter of Igbo Traditional Religion with Christianity these are no longer practised. Misinterpretation of God's will by some religions of the world has given rise to religious violence, religious extremism, fanaticism and terrorism we are experiencing today in the world. For these problems to be resolved it is pertinent that the study of various religions be taken seriously. This study should be aiming at better understanding co-existence, respect for one another and frequent inter-religious dialogues among the various religions of the world. When this is achieved the believers of various religions would realize that many are worshipping one God and their desire is to communicate with Him although they may approach Him differently.

Cultural Representations of the Second Wife Jo Parnell, 2023-12-11. Cultural Representation of the Second Wife: Literature, Stage and Screen is a multifaceted interdisciplinary cross-cultural work that provides insights into the realities of second wives the world over. This book allows the reader a three-dimensional view of the second wife experience. It asks: What does it mean and what does it feel like to be a second wife in a polygamous union or in a monogamous partnership? Is there a difference? Together the writers in this book cleverly create an in-depth study of the subject through the productions referred to in the title to offer a different approach to the popularly held views of the second wife. The book addresses the intricacies, customs, practices and lifestyles of the various Eastern and Western cultures and demonstrates the abilities of the Humanities to connect and interrelate with other disciplines as well as with the reader's own world.

Remapping African Literature Olabode Ibrionke, 2018-02-12. This book is an exploration of the material conditions of the production of African literature. Drawing on the archives of Heinemann's African Writers Series, it highlights the procedures, relationships, demands, ideologies and counterpressures engendered by the publication of three major authors: Chinua Achebe, Wole Soyinka and Ngugi wa Thiong'o. As a study of the history and techniques of African literary texts, this book advances a theory of reciprocity of effects, what it terms auto-heteronomy, to describe the dynamic of formalist activism by which texts anticipate and shape the forces of literary production in advance. It serves as a departure from the death of the author thesis by reconsidering the role of the author in African literature and culture industry as well as the influence of African publics on writers' aesthetic choices and on the overall processes of production. This work is a major contribution to African literary history, literary criticism and book history.

Things Fall Apart Chinua Achebe, 2008. Chinua Achebe's first novel portrays the collision of African and European cultures in people's lives. Okonkwo, a great man in Igbo traditional society, cannot adapt to the profound changes brought about by British colonial rule. Yet, as in classic tragedy, Okonkwo's downfall results from his own character as well as from external forces.
