These encounters have been shaped by political, social, and cultural factors, including the shared use of the Chinese writing system in East Asia for many centuries, attitudes toward other Asians and Westerners, and perceptions of Korean identity in relation to these. Others. After exploring aspects of historical interactions, the volume addresses how the role and practice of translation and interpreting have recently evolved as a result of the development of digital technology, an increase in the number of immigrants, and changes in political and cultural dynamics in the region. It covers a range of historical and contemporary aspects, genres, and venues that extend beyond the common yet restrictive focus on literary translation and includes discussions of translator training and academic studies of translation and interpreting in Korea.
