contemporary understandings of addiction to name the realities of addiction and human brokenness and she lifts up the biblical exodus narrative as a more generative metaphor for salvation that accounts for both the challenge and hope for liberation and recovery in the present moment This theological reframing is not only about individual healing for those with addiction but also about reshaping communal practices Carlier invites churches to learn from the recovery communities that often gather in their basements where authenticity mutual accountability acceptance and daily practices of living into freedom are valued In doing so Finding God in the Basement contributes meaningfully to ongoing conversations in constructive theology practical theology and Christian ethics offering a compelling vision of what Christian communities might become when they center grace authenticity and vulnerability
