*North Korea* Hazel Smith,2015-04-06 In this historically grounded richly empirical study of social and economic transformation in North Korea Hazel Smith evaluates the marketization from below that followed the devastating famine of the early 1990s estimated to be the cause of nearly one million fatalities Smith shows how the end of the Cold War in Europe and the famine brought radical social change to all of North Korean society This major new study analyses how marketization transformed the interests expectations and values of the entire society including Party members the military women and men the young and the elderly Smith shows how the daily life of North Koreans has become alienated from the daily pronouncements of the North Korean government Challenging stereotypes of twenty five million North Koreans as mere bystanders in history Smith argues that North Koreans are neither victims nor villains but active agents of their own destiny

*Broken Voices* Roald Maliangkay,2018-03-31 *Broken Voices* is the first English language book on Korea s rich folksong heritage and the first major study of the effects of Japanese colonialism on the intangible heritage of its former colony Folksongs and other music traditions continue to be prominent in South Korea which today is better known for its technological prowess and the Korean Wave of popular entertainment In 2009 many Koreans reacted with dismay when China officially recognized the folksong Arirang commonly regarded as the national folksong in North and South Korea as part of its national intangible cultural heritage They were vindicated when versions from both sides of the DMZ were included in UNESCO s Representative List of the Intangible Cultural Heritage of Humanity a few years later At least on a national level folksongs thus carry significant political importance But what are these Korean folksongs about and who has passed them on over the years and how *Broken Voices* describes how the major repertoires were transmitted and performed in and around Seoul It sheds light on the training and performance of professional entertainment groups and singers including kisaeng the entertainment girls often described as Korean geisha Personal stories of noted singers describe how the colonial period the media the Korean War and personal networks have affected work opportunities and the standardization of genres As the object of resentment and competition and a source of creative inspiration the image of Japan has long affected the way in which Koreans interpret their own culture Roald Maliangkay describes how an elaborate system of heritage management was first established in modern Korea and for what purposes His analysis uncovers that folksong traditions have changed significantly since their official designation one major change being gender representation and its effect on sound and performance Ultimately *Broken Voices* raises an important issue of cultural preservation traditions that fail to attract practitioners and audiences are unsustainable so compromises may be unwelcome but imperative Form and Freedom in Korean Poetry McCann,2024-06-03 English Journal ,1980 *Three Days in the Hermit Kingdom* Eddie Burdick,2014-01-10 To most of the world North Korea remains a secretive and mysterious nation one that has tightly controlled the outflow of information in order to groom its public image This book chronicles a rare regime sanctioned

excursion by a North American into the heart of the Democratic People's Republic of Korea. What is revealed is often what is expected, such as the adoration of leaders, excursions to national monuments, and exposure to propaganda relating to self-sufficiency. But as a Korean speaker, the author gathered a lot more information than the scripted English narration provided by his Korean guides. Behind the propaganda of the Communist regime, the authentic eye-opening North Korea is revealed.

**Asian Music**, 1999     **Opera, Concert and Symphony**, 1945     **The Garland Encyclopedia of World Music** Ruth M. Stone, 2017-09-25. An award-winning reference, its contributions are from top researchers around the world who were active in fieldwork and from key institutions with programs in ethnomusicology. GEWM has become a familiar acronym and it remains highly revered for its scholarship, uncontested in being the sole encompassing reference work with a broad survey of world music. More than 9,000 pages with musical illustrations, photographs, and drawings, it is accompanied by 300 audio examples.

**Transnational Cultural Flow from Home** Pyong Gap Min, 2022-12-09. When the first wave of post-1965 Korean immigrants arrived in the New York-New Jersey area in the early 1970s, they were reliant on retail and service businesses in the minority neighborhoods where they were. This caused ongoing conflicts with customers in black neighborhoods of New York City with white suppliers at Hunts Point Produce Market and with city government agencies that regulated small business activities. In addition, because of the times, Korean immigrants had very little contact with their homeland. Korean immigrants in the area were highly segregated from both the mainstream New York society and South Korea. However, after the 1990 Immigration Act, Korean immigrants with professional and managerial backgrounds have found occupations in the mainstream economy. Korean community leaders also engaged in active political campaigns to get Korean candidates elected as city council members and higher levels of legislative positions in the area. The Korean community's integration into mainstream society also increasingly developed stronger transnational ties to their homeland and spurred the inclusion of everyday Korean life in the NY-NJ area. *Transnational Cultural Flow from Home* examines New York Korean immigrants' collective efforts to preserve their cultural traditions and cultural practices and their efforts to transmit and promote them to New Yorkers by focusing on the Korean cultural elements such as language, foods, cultural festivals, and traditional and contemporary performing arts. This publication was supported by the 2022 Korean Studies Grant Program of the Academy of Korean Studies (AKS 2022 P 009).
