Exploring Biological Anthropology Craig Britton Stanford, John Scott Allen, Susan C. Antón, 2012-06 **The Red Planet** Bill Hatcher, 2024-04-16 We humans have an extraordinary capacity for compassion much of it in response to the atrocities we inflict on the planet its animals and each other The popular explanation for this paradox is that we evolved as carnivorous killer apes who gradually curbed our lust for violence with frequent exceptions by implementing humane social norms This explanation is so well worn especially in the American psyche that it epitomizes cliché So we could be forgiven for believing it when nearly every word is fiction Current research shows that our original biological and social programming is nonviolent So what changed What turned us from goddess worshiping plant eating peacemakers into god worshiping animal eating warmongers Find out in this fresh avant garde nonfiction **The Red Planet Gendered Landscapes and Violent Inequalities** and learn how our intrinsically feminine predilection for peace may yet save us
