High-frequency Sight Words Tanya Costa,2018-01-28 Sight Words is a beautiful illustrated book that allows children to
practice their knowledge of sight words Kids have to read the sight word or parent and then find its corresponding image in
the fun illustrations Simply read the word at the bottom of the book and then find it in the picture About Sight Words Sight
Words are words that are recognized immediately on sight without phonetically decoding or sounding out parts Sight words
often also called high frequency sight words are commonly used words that young children are encouraged to memorize as a
whole by sight so that they can automatically recognize these words in print without having to use any strategies to decode
Sight words account for a large percentage up to 75% of the words used in beginning children s print materials The
advantage for children being able to recognize sight words automatically is that a beginning reader will be able to identify
the majority of words in a beginning text before they even attempt to read it therefore allowing the child to concentrate on
meaning and comprehension as they read without having to stop and decode every single word Advocates of whole word
instruction believe that being able to recognize a large number of sight words gives students a better start to learning to
read Recognizing sight words automatically is said to be advantageous for beginning readers because many of these words
have unusual spelling patterns cannot be sounded out using basic phonics knowledge and cannot be represented using
pictures For example the word was does not follow a usual spelling pattern as the middle letter a makes an u a sound and the
final letter s makes a z sound nor can the word be associated with a picture clue since it denotes an abstract state existence
The list is comprised of 100 words grouped and includes pronouns adjectives adverbs prepositions conjunctions verbs and
nouns How fast should I go through the book The length and the pace of the daily lessons will vary with your child s age and
abilities We suggest the following schedule For children under five one page per day will suffice and maintain their
concentration on the lesson For children between five and six two to three pages per day will be sufficient For children over
six three or more pages per day will be fine Children have a very short attention span Try to keep each lesson under fifteen
minutes and spend no more than five to seven minutes per page If your child is young don t rush Work at a leisurely and
comfortable pace Remember you have plenty of time to complete the course and if necessary to go back and repeat the
course before your child starts reading instruction in school How old should my child be when we start the Reading Lesson
The book is meant for children between the ages of 3 and 8 We do not suggest that you try to teach a child under the age of
three to read Contrary to some books that suggest that you can teach infants to read there is no proof that such a thing is
possible Children need certain developmental skills before they can read Flashing cards with letters and words at a baby is a

fun thing to do and makes us feel like good parents but it does not work The Reading Lesson is a totally developmentally appropriate course that is easy to follow and makes learning to read fun for parents and kids The book is an easy and cheap solution to teaching your children to read at home and has been a success with families all around the world Give it a try you re sure to love it
