The Illustrated Guide to Dreams Brenda Mallon, 2000 Provides an introduction to the history of dreams throughout the world and explains common dream symbols

Essential Interviewing and Counseling Skills Tracy A. Prout, Melanie J. Wadkins, 2014-03-27 This is the only comprehensive text to focus on the development of practical interviewing and counseling skills for master's level mental health counseling students. It is structured around the goals established by the

CACREP's 2009 document on standards for MHC programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies. The benefits of integrating complementary therapy approaches according to the needs of the client and the importance of multicultural considerations in interviewing and counseling are consistent themes throughout. The book's hands-on guidance regarding interviewing and counseling skills along with its embrace of different therapeutic modalities will enable students to learn how to provide care to clients that is tailored to their specific needs. Each chapter includes a highlighted section that draws students' attention to topics related to diversity and strategies for working with clients from a variety of populations. Issues related to race, ethnicity, immigration, and country of origin are highlighted along with age, gender, sexual orientation, religion, language, and physical and cognitive abilities. The use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room. The book also addresses working with clients who have serious emotional or psychological difficulties and covers evidenced-based practice, assessment and diagnosis, and when and how to terminate treatment. An instructor's guide and PowerPoint slides are also included.

Key Features: Provides a balanced, integrated theoretical and practical approach to interviewing and counseling with a focus on skills development. Teaches the fundamental skills of empathy, active listening, treatment planning, and developing a strong therapeutic alliance. Includes Spotlight on Culture sections with case studies to emphasize how diversity informs sensitive and effective psychotherapy. Provides exercises to help students discover their own blind spots in regard to diversity. Offers a realistic window into the profession through numerous case examples.

Audio-visual Guide, 1950 **Expressive Arts Interventions for School Counselors** Suzanne Degges-White, Bonnie R. Colon, 2014-11-21. Presents 100 interventions using creative and expressive arts counseling techniques in school settings. Expressive arts therapies are a rich resource for use with children and adolescents who are often unresponsive to traditional talk therapy and highly useful to school counselors who must overcome cultural, language, and ability barriers that are increasingly present in diverse and multicultural school settings. This is the first book written specifically for school counselors about using creative and expressive arts counseling techniques in school settings. It presents over 100 interventions using art, drama, music, writing, dance, and movement that school counselors can easily incorporate into their practices with individual students and groups and in classroom settings. These creative interventions, based on the American School Counselor Association (ASCA) National Model framework, support the key student domains of academic, career, and personal/social development. The text also meets the important demand for accountability in school counseling by providing guidelines for evaluating the effectiveness of each intervention. Addressing such issues as emotional expression, social skills development, managing anger/aggression, developing self-esteem, working well with diverse peers, career exploration, and academic skill development, the book is organized by specific types of expressive arts therapies and how they can be used to support different domains in the ASCA model. Each intervention outlines the presenting concerns for which it is most useful.

appropriate grade levels required materials preparation needed step by step instructions modifications for special needs students and an outcome assessment plan A handy quick reference chart helps readers to quickly locate appropriate interventions for specific concerns Ideal for the school counselor social worker or psychologist who may not have specific training in arts therapies this book can also help trained arts therapists who will be working in a school setting to select appropriate interventions Key Features Presents over 100 creative and expressive arts interventions that can be easily incorporated into school counseling practice Addresses all relevant ASCA National Model domains academic career and personal social Provides easy to follow preparation and delivery directions and outcome evaluation methods for each intervention Includes modifications for special needs populations Offers a handy quick reference chart matching interventions to appropriate concerns
