**Artificial Intelligence and Instruction** Greg Kearsley, 1987. It documents the attempts of various researchers who share the desire to move ICAI programs into the real world of education and training. It contains a collection of articles that describe various aspects of developing ICAI programs. Preface. *Artificial Intelligence: From Zero To Practical Use* Kael Novera, 2025-11-04. Artificial Intelligence is no longer the future; it is the present. In this accessible and engaging guide, Kael Novera takes readers on a journey that transforms curiosity into practical knowledge. In a clear and human way, the book explains what AI is, how it came about, how it works, and how to apply it in everyday life, even if you have never used it before. Using simple language and real-life examples, the author shows how AI is changing careers, businesses, and habits, revealing essential tools such as ChatGPT, Midjourney, Copilot, and more. Throughout the chapters, readers learn how to use technology to increase productivity, stimulate creativity, and create new opportunities without needing to know how to program. More than a technical manual, this is a guide to personal and professional transformation, teaching you how to think smart in the digital age. Master AI practice and see real results. Because the future isn't about replacing people with machines, it's about expanding what people are capable of doing with them. **Haven's Complete Manual of Practical Phonography** Curtis Haven, 1908.
