Bullying Awareness Book Primer:

No BULLIES Bobby Kipper, Bud Ramey, 2013-10-08 We've all seen bullies in action. Many of us have been the victims. Some of us have been the perpetrator. Thanks to all the attention being focused on bullies and the issues that surround them, most of us are getting the information we need. But if we're raising children in this culture of bullying or if we're part of the village that helps, we also need some effective and user-friendly tools to go up against the bully. We need some very specific and action-oriented strategies to help every child feel welcomed and valued. And that's the reason why Bud Ramey and Bobby Kipper wrote *No BULLIES*. [From Critical Literacy to Critical Pedagogy in English Language Teaching](#) Melina Porto, 2022-09-16 With a Foreword by Hugh Starkey and Audrey Osler and Afterwords by Graham Crookes, Hilary Janks, and Allan Luke, this book promotes critical language education and illustrates how a critical agenda can be enacted in English language education in real classrooms. It presents four cases located in primary and secondary schools in the province of Buenos Aires in Argentina in contexts that can be characterised as vulnerable or difficult. It describes the possibilities, challenges, and limitations of this critical agenda using students' drawings, posters, leaflets, artwork, classroom activities, and conversational data as foundation, and including the voices of local teachers in their classrooms. Importantly, these teachers used teacher-made, locally produced critical post-method materials described by the author of those materials in one of the chapters. In this way, the book offers a unique balance of researcher, teacher, and materials writer voices. These materials are included in the book and can help language teachers around the world to introduce critical perspectives in their specific contexts. The book is appealing to researchers, classroom teachers, teacher educators, and materials writers and developers interested in critical language education. factors most commonly associated with school violence and safety Implications for Practice Each chapter bridges the research to practice gap with a section delineating implications for practice of the foregoing research Chapter Structure To ensure continuity and coherence across the book each chapter begins with a brief abstract and ends with a table showing the implications for practice International Focus Acknowledging the fact that school violence and safety is a global concern this edition has increased its focus on insights learned from cross national research and practice outside the USA Expertise The editors and authors are experienced researchers teachers practitioners and leaders in the school violence field their expertise includes their breadth and depth of knowledge and experience bridging research policy and practice and representing a variety of international organizations studying school violence around the world **The Bookman** ,1906
