Open Cities | Open Data Scott Hawken, Hoon Han, Chris Pettit, 2019-09-26 Today the world s largest economies and corporations trade in data and its products to generate value in new disruptive markets Within these markets vast streams of data are often inaccessible or untapped and controlled by powerful monopolies Counter to this exclusive use of data is a promising world wide open data movement promoting freely accessible information to share reuse and redistribute The provision and application of open data has enormous potential to transform exclusive technocratic smart cities into inclusive and responsive open cities This book argues that those who contribute urban data should benefit from its production Like the city itself the information landscape is a public asset produced through collective effort attention and resources People produce data through their engagement with the city creating digital footprints through social medial mobility applications and city

Chinese community has uniquely shaped the twin Chinatowns amidst the city's diverse urban tapestry and gradually modified the adjacent cultural landscape towards a little China. As these neighbourhoods encounter modern challenges of gentrification and global connectivity, the book explores the ways in which the community, particularly its youth, navigates the complexities of maintaining a transnational identity while being deeply rooted in the local cultural milieu. From the continuous ebb and flow of migration to the fostering of hybrid identities, this analysis examines how these transformations impact community cohesion and cultural heritage. Featuring poignant individual case studies from Indian Chinese respondents, the book examines issues such as identity preservation efforts and the effects of socio-economic changes. Research techniques like adopting visual ethnographic streetscape and cognitive emotional cartography depict the everyday geography of the twin Chinatowns, illustrating how these communities claim their spaces and build connections on a global scale. Kunaljeet Roy and Sukla Basu reconnect with the essence of Kolkata's Chinese community and showcase how they navigate the challenges of a globalised world while holding onto the threads of heritage that define them as a Chinese Calcuttawallah.
