theme *Comic Book Collections and Programming* Matthew Z. Wood, 2018-08-15 *Comic Book Collections and Programming* will help librarians build a collection that's right for their library including specialty collections for kids, teens, and adults. It covers the practical realities of this non-traditional format like binding, weeding, and budgeting. It also addresses advanced topics like comics and pedagogy, bringing comics artists and authors into the library and using comics as a community outreach tool, even hosting comic conventions in libraries. The guide covers Comics for kids, teens, and adults; Comics genres from superheroes to fantasy to Manga; from memoirs and biographies to science texts to Pulitzer Prize-winning literature; Comics publishers and distributors; Comics history and influential contemporary creators; Online resources and communities. After reading the guide, librarians will be able to: Organize creator visits and events; Plan and produce community anthologies; Host drawing parties and comic discussion groups; Preserve comics in a library environment; Develop, run, and grow a library-based comic convention. This is an essential reference for collections librarians, children's librarians, and teen librarians, whether they are comics lovers or have never read an issue. The guide is aimed at public, academic, and school libraries.

**Everyday Adventures** Fahad Munir, 2025-10-09 *Step into a world of laughter, learning, and friendship. Everyday Adventures: Stories of Friendship and Fun* brings together five beautifully illustrated tales that capture the joys of childhood, from first-day jitters to teamwork triumphs and lost shoe mysteries. Join Mia, Leo, Emma, Noah, and Lily as they discover kindness, courage, and teamwork in their everyday adventures. Each story is filled with gentle life lessons that inspire young readers to care, share, and believe in themselves.

*Unbored* Joshua Glenn, Elizabeth Foy Larsen, 2013-07-18 *Unbored* is the book every modern child needs. Brilliantly walking the line between cool and constructive, it's crammed with activities that are not only fun and doable but that also get kids standing on their own two feet. If you're a kid, you can: Build a tipi or an igloo; Learn to knit; Take stuff apart and fix it; Find out how to be constructively critical; Film a stop-action movie or edit your own music; Do parkour like James Bond; Make a little house for a mouse from lollipop sticks; Be independent; Catch a bus solo or cook yourself lunch; Make a fake exhaust for your bike so it sounds like you're revving up a motorcycle; Design a board game; Go camping or glamping; Plan a road trip; Get proactive and support the causes you care about; Develop your taste and decorate your own room; Make a rocket from a coke bottle; Play farting games. There are gross facts and fascinating stories, reports on what stuff is like (home schooling, working in an office), Q&As with inspiring grown-ups, extracts from classic novels, lists of useful resources, and best-ever lists like the top clean rap songs, stop-motion movies, or books about rebellion. Just as kids begin to disappear into their screens, here is a book that encourages them to use those tech skills to be creative, try new things, and change the world. And it gets parents to join in. *Unbored* is fully illustrated, easy to use, and appealing to young and old girls and boys. Parents will be comforted by its anti-perfectionist spirit and humour. Kids will just think it's brilliant.
