Marques, June Schmieder-Ramirez, Petros G. Malakyan, 2023-03-29

This handbook integrates the best leadership and followership theories and practices between the Global North West countries of Western individualistic cultures in Europe, North America, Australia, and Oceania and the Global South East countries of Eastern collectivistic cultures in Asia, Africa, South America, and South East Asia and Oceania. There is a need to bring the Global North West and the Global South East together to address global challenges such as climate change, global hunger and poverty, domestic and international terrorism, social justice, gender inequality, and domestic and global abuse of human and natural resources. This innovative volume proposes that the democratic leadership of the Global North West and the human-centered followership of the Global South East can transform the world if leadership and followership values, education, and practices are integrated. It utilizes findings from positive psychology, social psychology, organizational behavior, and world religions and contemplative wisdom traditions to highlight the case for global leadership and followership. [Business Ethics, Seventh Edition](#) Joseph W. Weiss, 2021-11-23

The seventh edition of this pragmatic guide to determining right and wrong in the workplace is updated with new case studies, exercises, and ancillary materials. Joseph Weiss's *Business Ethics* is a pragmatic, hands-on guide for determining right and wrong in the business world. To be socially responsible and ethical, Weiss maintains, businesses must acknowledge the impact their decisions can have on the world beyond their walls. An advantage of the book is the integration of a stakeholder perspective with an issues and crisis management approach so students can look at how a business's actions affect not just share price and profit but the well-being of employees, customers, suppliers, the local community, the larger society, other nations, and the environment. Weiss includes twenty-three cases that immerse students directly in contemporary ethical dilemmas. Eight new cases in this edition include Facebook's mis-use of customer data, the impact of COVID-19 on higher education, the opioid epidemic, the rise of Uber, the rapid growth of AI, safety concerns over the Boeing 737, the Wells Fargo false saving accounts scandal, and plastics being dumped into the ocean. Several chapters feature a unique point

counterpoint exercise that challenges students to argue both sides of a heated ethical issue This edition has eleven new point counterpoint exercises addressing questions like Should tech giants be broken apart What is the line between free speech and dangerous disinformation Has the Me Too movement gone too far As with previous editions the seventh edition features a complete set of ancillary materials for instructors teaching guides test banks and PowerPoint presentations
