Summary of the Robin Hood Case Analysis

During the second year of his insurrection against the sheriff of Nottingham, Robin Hood began to experience several difficulties that posed a threat to the very existence of his band of merry men. The revolt had erupted out of robin's conflict with the sheriff and his administration. However, he alone could do nothing and so he sought allies. Robin Hood spent the first year forging the group into a disciplined band, united in enmity against the sheriff and willing to serve outside the law.

Robin was the C. E. O of the band, making all important decisions and delegating specific task to his lieutenants. Despite the band's many strengths, the band had a number of weaknesses including the large size of the band hampering efficient management and his unfamiliarity with many of his band members. There were several opportunities available to the band which offered possible solutions. Robin had always entertained the idea of killing the sheriff but that would only satisfy him personally. It wouldn't solve the situation. His other options were joining the Barons conspiracy to return King Richard in return for future amnesty, reduce man power to eliminate expenses and to move to another area in search of revenue and resources.

Robin had also considered implementing a fixed transit tax, but came up against strong resistance from his lieutenants. The band also had to keep trac
