Reality Peter Kingsley:

REALITY (New 2020 Edition) Peter Kingsley, 2020-10-12 REALITY introduces us to the extraordinary mystical tradition that lies right at the roots of western philosophy science and civilization **Reality** Peter Kingsley, 2003 The mystical tradition that lies at the root of Western culture and the magic of the ancient masters of wisdom who laid the foundations for the world we now live in are introduced in this book Containing lost and forgotten ancient Greek texts in modern translation this book relates the teachings of Parmenides Empedocles and others like them spiritual guides and experts in other states of consciousness prophets and magicians and healers and interpreters of dreams Based on texts from more than 2 000 years ago it also documents the process that led to their work and teaching being distorted covered over and forgotten Publisher description **American Gurus** Arthur Versluis, 2014 Versluis shows how the convergence of Asian religions and Western mysticism produce the contemporary phenomenon of spontaneously enlightened gurus in America **Dreaming Reality** Vladimir Miskovic, Steven Jay Lynn, 2025-02-04 Dreaming Reality looks to mystical traditions to challenge orthodoxies of brain science that model consciousness in purely physical terms Instead of privileging the experience of waking life the authors study visionary states ego death meditation prayer and other phenomena that bring us closer to understanding how the mind makes experience *Nietzsche and the Becoming of Life* Vanessa Lemm, 2014-10-15 This exciting collection of essays challenges existing interpretations of several key moments of Nietzsche s philosophy Paul Patton Scientia Professor of Philosophy University of New South Wales Australia Throughout his writing career Nietzsche advocated the affirmation of earthly life as a way to counteract nihilism and asceticism This volume takes stock of the complexities and wide ranging perspectives that Nietzsche brings to bear on the problem of life s becoming on Earth by engaging various interpretative paradigms reaching from existentialist to Darwinist readings of Nietzsche In an age in which the biological sciences claim to have unlocked the deepest secrets and codes of life the essays in this volume propose a more skeptical view Life is both what is closest and what is furthest from us because life experiments through us as much as we experiment with it because life keeps our thinking and our habits always moving in a state of recurring nomadism Nietzsche s philosophy is perhaps the clearest expression of the antinomy contained in the idea of studying life and in the Socratic ideal of an examined life and remains a deep source of wisdom about living [The Cambridge Handbook of Western Mysticism and Esotericism](#) Glenn Alexander Magee, 2016-04-18 Mysticism and esotericism are two intimately related strands of the Western tradition Despite their close connections however scholars tend to treat them separately Whereas the study of Western mysticism enjoys a long and established history Western esotericism is a young field The Cambridge Handbook of Western Mysticism and Esotericism examines both of these traditions together The volume demonstrates that the roots of esotericism almost always lead back to mystical traditions while the work of mystics was bound up with esoteric or occult preoccupations It also shows why mysticism and esotericism must be examined together if either is to be understood fully Including contributions by

leading scholars this volume features essays on such topics as alchemy astrology magic Neoplatonism Kabbalism Renaissance Hermetism Freemasonry Rosicrucianism numerology Christian theosophy spiritualism and much more This Handbook serves as both a capstone of contemporary scholarship and a cornerstone of future research [Rhizai](#) ,2005 *Parabola* ,1998 **Otherwise Than the Binary** Jessica Elbert Decker,Danielle A. Layne,Monica Vilhauer,2022-07-01 Otherwise Than the Binary approaches canonical texts and concepts in Ancient Greek philosophy and culture that have traditionally been understood as examples of binary thinking particularly concerning sexual difference In contrast to such patriarchal logic the essays within this volume explore how many of these seemingly strict binaries in ancient culture and thought were far more permeable and philosophically nuanced Each contribution asks if there are ways of thinking of antiquity differently namely to examine canonical works through a lens that expounds and even celebrates philosophies of difference so as to discover instances where authors of antiquity valorize and uphold the necessity of what has been seen as feminine foreign and or irrational As contemporary thinkers turn toward new ways of reading antiquity these selected studies will inspire other readings of ancient texts through new feminist methodologies and critical vantage points When examining the philosophers and notable figures of antiquity alongside their overt patriarchal and masculinist agendas readers are invited to rethink their current biases while also questioning how particular ideas and texts are received and read **A Book of Life** Peter Kingsley,2021-09 Peter Kingsley is famous as both a historian and a teller of the future long before it appears Exquisitely written his Book of Life is a wide open door into the timeless magic and unfathomable mystery we have managed to forget **Library Journal** Melvil Dewey,Richard Rogers Bowker,L. Pylodet,Charles Ammi Cutter,Bertine Emma Weston,Karl Brown,Helen E. Wessells,2004 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately [The Publishers Weekly](#) ,1892 [Library Journal](#) ,2004 **American Book Publishing Record** ,2003 **Rosicrucian Digest** ,2005 **Iqbal Review** ,2009 [The New Scholasticism](#) ,2003 Includes section Book Reviews *Rumi's Sun* Shams-i Tabrīzī,2008 Rumi s Sun collects many lessons and discourses from Shams of Tabriz the Sufi mystic and spiritual master who was the catalyst for Rumi s awakening His teachings and insights inspired much of Rumi s poetry and are still celebrated today by all Sufi Translated by two noted students of Sufi Shams timeless teachings are presented here in their traditional order Through the book readers discover the teachings that made Rumi dance and gain access into Sufi traditions and the power of mystical love *Forthcoming Books* Rose Army,2003 [Journal of the Muhyiddin Ibn 'Arabi Society](#) ,2005
