They might say crystal healing is nothing more than a placebo and your mind is tricking itself into thinking crystals are magical but they're wrong. You and I both know better than that. A single crystal might not have the power to shoot magical laser beams that can destroy the whole universe but we know that somewhere deep inside every amethyst, rose quartz, and malachite is the power to channel our psychic powers, attract love, and heal all kinds of pain and illness. Let this book be a map to guide you through the many wonders and abilities that these beautiful stones hold hidden just beneath the surface.
