Ham Radio Technician + General Class License Study Guide Morse Code Publishing, 2025-02-13

A Complete Study Guide for Technician, General, Extra Class Ham Radio Exams, and the Volunteer Examiner's Test Joseph Lumpkin, 2012

Technician Class pool valid until June 30, 2018
General Class pool valid until June 30, 2015
Extra Class pool valid until June 30, 2016

Don't think of a black cat. Don't think of a black cat. Do not think of a black cat. The brain does not process negatives very well. It takes in information first and then later attempts to filter out false data. To expose someone to incorrect answers on a test is to place fraudulent information in memory and then say to the brain, "Don't remember these answers." It is for this reason the only answers you will encounter in this book are the correct ones. For those who wish to memorize only the answers, there are no formulas needed, no math, no electronics, or theories to learn. This manual contains the answers to all possible questions in all tests from Technician Class, General Class, and Extra Class license tests. In addition, the manual also provides the answers to the Volunteer Examiner's test. However, many people want to know why, and many need a framework on which to relate the answers. That is why this book is arranged so that theories, formulas, rules, and regulations are explained in separate chapters. General theories and concepts of electronics and antenna design, along with FCC regulations, are presented to the reader. Formulas, explanations, and diagrams from various sources give the reader all the information needed to pass the licensing tests, all in one book. This is a two-pronged approach: You choose the path that is best for you.

The Simplified Study Guide for the General Class Ham Radio License Examination Rajiv C. Raju, 2009-09-01

This book has only one goal: allow you to pass the General Class Element 3 Ham radio license exam with the least amount of time and effort. The first two chapters provide

concise summaries of all the rules and procedures you need for the test The third chapter lists all the mathematical formulas required The next ten chapters cover all of the elements that are listed in the publically available specification for the test The material is presented in a way that will allow the test taker to easily recognize the correct answer on the real test without being distracted by the wrong answer choices ABOUT THE AUTHOR RAJIV RAJU got his first Ham license at the age of 8 as KB9YFO His main motivation to get a license at that age was to attempt to talk with astronauts on the International Space Station who were communicating with people on Earth with ham radio He has held his current call K9RAJ since 2001 Rajiv wrote this book to make the wonderful hobby that is amateur radio accessible to even more people IMPORTANT NOTE The content of this book is valid until June 30 2011
