Digital and Media Literacy in the Age of the

Internet Mary Beth Hertz, 2019 Today's educators are confronted on a daily basis with the challenges of navigating digital resources, tools, and technologies with their students. They are often unprepared for the complexities of these challenges or might not be sure how to engage their students safely and responsibly. This book serves as a comprehensive guide for educators looking to make informed decisions and navigate digital spaces with their students. The author sets the stage for educators who may not be familiar with the digital world that their students live in, including the complexities of online identities, digital communities, and the world of social media. With deep dives into how companies track us, how the Internet works, privacy, and legal concerns tied to today's digital technologies, strategies for analyzing images, and other online sources, readers will gain knowledge about how their actions and choices can affect students' privacy as well as their own. Each chapter is paired with detailed lessons for elementary, middle, and high school students to help guide educators in implementing what they have learned into the classroom.

The Media and Me Ben Boyington, Allison T. Butler, Nolan Higdon, Mickey Huff, Andy Lee Roth, 2022-12-27 From foundations in critical thinking skills to practical tools and real-life perspectives, this book empowers young adult readers to be independent media users. *The Media and Me* is a joint production of The Censored Press and Triangle Square Books for Young Readers. During the recent presidential election, media literacy became a buzzword that signified the threat media manipulation posed to democratic processes. Meanwhile, statistical research has shown that 8 to 18-year-olds pack more than eleven hours with some form of media into each day by media multitasking. Young people are not only eager and interested to learn about and discuss the realities of media ownership, production, and distribution; they also deserve to understand differential power structures in how media influences our culture. *The Media and Me* provides readers with the tools and perspectives to be empowered and autonomous media users. The book explores critical inquiry skills to help young people form a multidimensional comprehension of what they read and watch, opportunities to see others like them making change, and insight into their own identity projects. By covering topics like storytelling, building arguments, and recognizing fallacies, surveillance, and digital gatekeeping, advertising, and consumerism, and global social problems through a critical media literacy lens, this book will help students evolve from passive consumers of media to engaged critics and creators.

Understanding Social Media Pamela Dell, 2018-08 Everybody thinks they can handle social media. They're only on with their friends. Everything on social media is real. Except that it isn't. Easy to understand, language simple, infographics, and evocative photos show kids what's real and what's fake on the various social media platforms and how to tell the difference.

Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World Dalkir, Kimiz, Katz, Rebecca, 2020-02-28 In the current day and age, objective facts have less influence on opinions and decisions than personal emotions and beliefs. Many individuals rely on their social networks to gather information thanks to social media's ability to share information rapidly and over a much greater geographic range. However, this creates an overall false balance as people tend to seek out information that is compatible with their existing views and

values They deliberately seek out facts and data that specifically support their conclusions and classify any information that contradicts their beliefs as false news Navigating Fake News Alternative Facts and Misinformation in a Post Truth World is a collection of innovative research on human and automated methods to deter the spread of misinformation online such as legal or policy changes information literacy workshops and algorithms that can detect fake news dissemination patterns in social media While highlighting topics including source credibility share culture and media literacy this book is ideally designed for social media managers technology and software developers IT specialists educators columnists writers editors journalists broadcasters newscasters researchers policymakers and students
