The Routledge Research Companion to Law and Humanities in Nineteenth-Century America Nan

Goodman, Simon Stern, 2017-05-12 Nineteenth century America witnessed some of the most important and fruitful areas of intersection between the law and humanities as people began to realize that the law formerly confined to courts and lawyers might also find expression in a variety of ostensibly non legal areas such as painting poetry fiction and sculpture Bringing together leading researchers from law schools and humanities departments this Companion touches on regulatory statutory and common law in nineteenth century America and encompasses judges lawyers legislators litigants and the institutions they inhabited courts firms prisons It will serve as a reference for specific information on a variety of law and humanities related topics as well as a guide to understanding how the two disciplines developed in tandem in the long nineteenth century

English Legal Histories Ian Ward, 2020-01-09 English Legal Histories is an exciting and innovative approach to the study of English law Written in an accessible style intended for students as well as a broader audience it takes the reader beyond the narrower confines of legal doctrines and cases and invites them to consider the myriad contexts within which English law has been shaped the politics the economics the art the poetry Reaching from the Reformation through to the age of Reform it tells stories the histories of English law Histories of the constitution and government of crime and contracts tort and trespass property and equity Of the people who made that law those who wrote it and those who suffered it For it is in the end a human story of justice and injustice of success and failure good luck and bad The law is full of statutes and instruments cases and precedent but its history is full of people and peculiarity Which is what of course makes it so endlessly fascinating

Father-Daughter Incest in Twentieth-Century American Literature Christine Grogan, 2016-10-03 The first major study to challenge the narrow definition of post traumatic stress disorder PTSD by rereading six American literary texts this book argues for the importance of literature in representing not just circumscribed singular traumatic events as Cathy Caruth argued in the late nineties but for giving voice to chronic and cumulative or complex traumatic experiences This interdisciplinary study traces the development of father daughter incest narratives published in the last hundred years from male authored fiction to female authored memoir bringing new readings to Fitzgerald's Tender Is the Night Ellison's Invisible Man and the Dylan Farrow Woody Allen case This study builds on the work of those ushering in a second wave of trauma theory which has argued that the difficulty of speaking about a traumatic experience is not necessarily caused by neurobiological changes that prevent victims from recalling details Rather it's from social and political repercussions In other words they argue that many who experience trauma aren't unable to deliver accounts they fear the results There is a significant gender component to trauma whose implications along with those of race and class have largely gone unexamined in the first wave of trauma theory Exploring two additional questions about articulating trauma this book asks what happens when the voice of trauma is crying out from what Toni Morrison has called

the most delicate most vulnerable member of society a female child and second what happens when the trauma is not just a time limit event but chronic and cumulative experiences Some traumatic experiences namely father daughter incest are culturally reduced to the untellable and yet accounts of paternal incest are readily available in American literature This book is written in part as a response to the psychological community which failed to include complex PTSD in the latest edition of the DSM DSM 5 denying victims many of whom are father daughter incest survivors the validation and recognition they deserve and leaving many misdiagnosed and thereby mistreated
