

Algebra 2B - Activity 10.2

1. Based on the grid below, identify each function below as being a linear or a non-linear function.

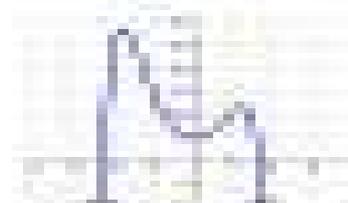

linear

linear

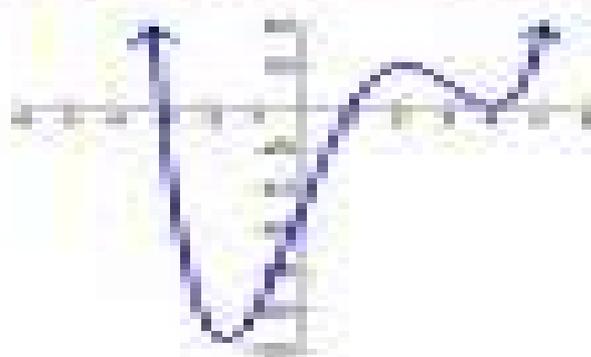

linear

linear

2. Identify each of the functions below that are **linear** and those that are **non-linear**.

Hint: you can tell just by looking at the function's graph whether it **is** or **is not** a linear function.

What is wrong with the graph below that would make it a non-linear function?

3. Graph each of the functions on the grid below. Be sure to label the axes and the grid. Be sure to label the x and y axes with the appropriate units. If a function is **not** linear, you should label the function.

Remember, the functions below that are **not** linear are **not** necessarily **non-linear** functions. They could be **piecewise linear** functions or **non-linear** functions.
