Updike's Novels Donald J. Greiner, 1984 This is a companion volume to Greiner's *The Other John Updike: Poems, Short Stories, Prose, Play* published in 1981 and is a perceptive study and thorough discussion of Updike's major fiction. The book does not impose a thesis on Updike's development as a novelist but offers an informed reading of the novels to isolate and discuss the qualities that made Updike great. Greiner supplements this with an analysis of the critical reception accorded to each of the novels. He includes excerpts from published interviews with Updike to illuminate his view of fiction, his debt to conservative theologian Karl Barth, his conception of the dilemma faced by 20th-century American writers, and his relationship with Nathaniel Hawthorne. He has grouped the novels to demonstrate Updike's range of interest, his formal versatility, and his sharp ear for contemporary American speech. Of particular interest is his overview of Updike's *Rabbit* chronicle. ISBN 0 8214 0780 5 23 95
