- Pays the outstanding balance of your mortgage in the event of your or your spouse's death

- You do not need to take out Mortgage Protection with your mortgage provider – you can shop around for the best deal
- Mortgage Protection does not cover your monthly repayments if you cannot work due to redundancy, sickness or disability
- Provides access to Best Doctors Second Medical Opinion service at no extra cost

INCOME PROTECTION

- Can work as a replacement source of income if you are unable to work on a medium to long-term basis due to an illness or injury
- When you take out a policy, you can choose after how many weeks off work you want to receive Income Protection payments. This is the 'deferred' period. The shorter the deferred period you choose, the more expensive your premium will be
- Up to 75% of your earnings can be covered
- At Aviva, all of our Income Protection policies are at a guaranteed premium, so they will never rise throughout the term of your policy once you accept the cover
- Access to Best Doctors Second Medical

Local elections and consumption insurance : evidence from Chinese villages Li Gan,2007 Abstract While the literature on consumption insurance is growing fast little research has been conducted on how rural consumption insurance is affected by democracy In this paper the authors examine how consumption insurance of Chinese rural residents is affected if the local leader is democratically elected

Exploring a unique panel data set of 1 400 households from 1987 to 2002 they find that consumption insurance is more complete when the households are in villages with elected village leaders Furthermore democracy improves consumption insurance only for the poor and middle income farmers but not for the rich These findings underline the importance of democratic governance for ensuring better rural consumption insurance and poverty reduction

Young Ewing Allison,1930 Limited Insurance Portability and Job Mobility Jonathan Gruber,Brigitte C. Madrian,1993 The link between health insurance and the workplace in the U S has led to concern over the possibility of insurance induced reductions in job mobility or job lock Designing health insurance reforms which retain employer based insurance coverage but mitigate the extent of job lock requires an understanding of the policy dimensions to which job lock is most receptive We study a policy of limited insurance portability which has been adopted by a number of states and the federal government over the last 20 years These continuation of coverage mandates grant individuals the right to continue purchasing health insurance through their former employers for some period of time after leaving their jobs We find that the passage of these mandates caused a significant increase in the job mobility of prime age male workers This suggests that a sizeable share of job lock arises from short run concerns over portability rather than from long run problems
