Entrepreneurship and Enterprise Development in Africa Daniel Agyapong, Rosemond Boohene, 2024-03-14 Entrepreneurship and Enterprise Development in Africa presents a timely and compelling account of African entrepreneurship shedding light on the critical part it plays in the continent s economic growth and development It explores the various challenges opportunities and success stories that define the African entrepreneurial landscape and highlights the ingenuity and determination of the continent s entrepreneurial minds **Women and Global Entrepreneurship** Maura McAdam, James Cunningham, 2021-04-05 Entrepreneurship in context has been described as the third wave in entrepreneurship research Accordingly specific socio economic political market and institutional contexts are key to fostering enabling and enacting entrepreneurial activity and behaviours These contexts shape everyday entrepreneurship experiences

This book is based on the premise that how gender is articulated within the entrepreneurial debate has to acknowledge context. However, context is not a construct that only applies to those economies and situations that differ from the presumed norm of Western developed nations. Adopting a more critical appraisal of how context is positioned within current theorizing around gender and entrepreneurial behaviours offers potential to progress debate whilst acknowledging that competing and contrasting contextual influences require clearer recognition. This book therefore has the potential to unearth credible and robust approaches to further examining contextualisation and women entrepreneurship that advances new insights. By exploring and examining how contextual influences shape women's entrepreneurship, this book challenges the assumption that women entrepreneurship is the same throughout the world. It will be of value to researchers, academics, and students with an interest in entrepreneurship, political economy, economics, and public policy.
