

An aerial photograph of a dry, cracked landscape, likely a salt flat or a desert. The ground is a mix of light brown and tan colors, with numerous dark, winding cracks and small, shallow depressions. The overall texture is rough and uneven. In the upper left corner, there is a black rectangular box with a white border containing the title and author's name in bold, yellow and blue text.

Solution Pattern Recognition And Machine Learning Bishop:

Pattern Recognition and Machine Learning Christopher M. Bishop, 2016-08-23 This is the first textbook on pattern recognition to present the Bayesian viewpoint The book presents approximate inference algorithms that permit fast approximate answers in situations where exact answers are not feasible It uses graphical models to describe probability distributions when no other books apply graphical models to machine learning No previous knowledge of pattern recognition or machine learning concepts is assumed Familiarity with multivariate calculus and basic linear algebra is required and some experience in the use of probabilities would be helpful though not essential as the book includes a self contained introduction to basic probability theory
