Random Walks in Solitude Anil Vishnu Moharir,2024-07-11 Random Walks In Solitude Glimpses of Religion and Spirituality through the Eyes of Modern Science The Random Walks in Solitude Glimpses of Religion and Spirituality through the Eyes of Modern Science is a collection of articles published by the author since 2006 AD The topics include some of the most complex and enigmatic subjects as Concept of Prana Universal Consciousness Scientific basis of Samudra Manthan the Proverbial Churning of Cosmic Ocean Lord Dattatreya Ardha Nari Natashwara and Science behind Yogic Samadhi While doing so the author does not claim that his interpretations on some of these enigmatic concepts are exactly true but in the absence of any serious attempt done so far they feel refreshing and he has attempted to re validate religion and spirituality on scientific logic and reasons Otherwise we as a community were just holding them dear to our hearts for thousands of years as fanciful stories These concepts were conceived and described by our ancient Rishis in native terminologies and language and since then have remained a part of our psyche in our life Today as professional scientists we need to re look to these concepts afresh from modern scientific perspective identify and correlate them with current scientifically analogous terminologies without losing their original perceptive meaning they conveyed to our minds In this respect the logical scientific interpretations of the concepts of Soul Rebirth Work and the Law of Karma published earlier by the author have received considerable attention and appreciation In the same spirit the author hopes that the readers would find this book also equally interesting innovative refreshing and scientifically logical to realize the continued relevance of the Sanatan Vedic Philosophy even in the twenty first century
