Apes Chapter 2 Notes Ecosystems What They Are 2 1 Notes:

Redecentralisation Ruth Wandhöfer, Hazem Danny Nakib, 2023-04-21 The rise of smartphones social media cryptocurrencies and digital assets has changed our lives profoundly over the last decade In tandem the relationship between governments citizens and businesses has evolved creating new sets of challenges and imbalances but also opportunities This book focuses on the evolving digitisation of the financial industry and the impact this has on users Particular attention is given to the emergence of new technologies such as blockchain smart contracts and AI The increasingly interconnected data driven digital economy which includes many aspects of an individual s and organisation s life has become a challenge for regulators too Matters are complex but also increasingly centralised with a growing trend of distrust Should we push for more decentralisation To shed light on this question we begin by providing an overview of key concepts and develop a high level qualitative framework and approach to what we call Redecentralisation Delving into those technology areas that form part of the tectonic plate shift of our financial system we explore the pillars of money and payments that are at a turning point with the replacement of key infrastructural components necessary for the future of what we call the Digital Financial Ecosystem Digital identity and data privacy also form part of this broader puzzle We then look to the future to consider some of the latest trends and what if scenarios Where do we see Redecentralisation at play in the Digital Financial Ecosystem What is the role of technology in this e g Web3 the Metaverse and Decentralised Finance Can Redecentralisation support an alignment of values across people governments and businesses What is the role of technology in this And finally do we need a new digital social contract to underpin and protect our digital lives

Re-enchanting Humanity Murray Bookchin, 1995 This work represents Murray Bookchin s riposte to the antihumanism mysticism and antirationalism which are influencing many people s attitudes to environmental problems Bookchin offers a critique of among others social Darwinists deep ecologists new agers technophobes Foucault Derrida and Baudrillard

Ethics, Information, and Technology Kip Currier, 2025-10-16 Information use is changing rapidly in the digital age leading to complex intellectual property and ownership issues Exploring the ethical implications of this new environment specifically as they relate to information professionals this text offers guidance on making ethical choices

Social and Political Philosophy James P. Sterba, 2002-11-01 Social and Political Philosophy introduces some of the most important topics in contemporary political philosophy and questions whether these can be accommodated within the framework of liberal theory It consists of specially written essays by prominent figures in social and political philosophy Each essay carefully considers both the theoretical and practical problems of a major topic Traditional perspectives are balanced with new challenges Topics include Moral Methodology Libertarianism Socialism Lesbian and Gay Perspectives Feminism Racial and Multicultural Perspectives Rationality Welfare Liberalism Environmentalism Virtue Ethics and Community Just War Theory and Pacifism Civil Disobedience

Zoopolis Sue Donaldson, Will Kymlicka, 2011-11-24 Zoopolis offers a new agenda for the theory and

practice of animal rights Most animal rights theory focuses on the intrinsic capacities or interests of animals and the moral status and moral rights that these intrinsic characteristics give rise to Zoopolis shifts the debate from the realm of moral theory and applied ethics to the realm of political theory focusing on the relational obligations that arise from the varied ways that animals relate to human societies and institutions Building on recent developments in the political theory of group differentiated citizenship Zoopolis introduces us to the genuine political animal It argues that different types of animals stand in different relationships to human political communities Domesticated animals should be seen as full members of human animal mixed communities participating in the cooperative project of shared citizenship Wilderness animals by contrast form their own sovereign communities entitled to protection against colonization invasion domination and other threats to self determination Liminal animals who are wild but live in the midst of human settlement such as crows or raccoons should be seen as denizens resident of our societies but not fully included in rights and responsibilities of citizenship To all of these animals we owe respect for their basic inviolable rights But we inevitably and appropriately have very different relations with them with different types of obligations Humans and animals are inextricably bound in a complex web of relationships and Zoopolis offers an original and profoundly affirmative vision of how to ground this complex web of relations on principles of justice and compassion

Sociology in Today's World Brian Furze, Cengage Learning Australia, Pauline Savy, 2014
 Sociology in Today's World explores why sociology is important and relevant to everyday life It teaches students how to think sociologically not just what to think and shows how sociology can help us make sense of our lives It comprehensively covers key aspects and current issues in Australian and New Zealand society whilst emphasising the importance of diversity and a global perspective

The Environmental Ethics and Policy Book Donald VanDeVeer, Christine Pierce, 1998 This text and sourcebook crosses disciplinary boundaries and attends seriously to economic reasoning and its implications for environmental policy issues while taking a broad view of questions of ethics It is appropriate and valuable not only for philosophy and environmental science students but also for students of economics biology engineering and public policy
