**Applied Linear Regression Models** John Neter, William Wasserman, Michael H. Kutner, 1989 Applied Linear Regression Models was listed in the newsletter of the Decision Sciences Institute as a classic in its field and a text that should be on every member's shelf. The third edition continues this tradition. It is a successful blend of theory and application. The authors have taken an applied approach and emphasize understanding concepts; this text demonstrates their approach through worked-out examples. Sufficient theory is provided so that applications of regression analysis can be carried out with understanding. John Neter is past president of the Decision Science Institute and Michael Kutner is a top statistician in the health and life sciences area. Applied Linear Regression Models should be sold into the one-term course that focuses on regression models and applications. This is likely to be required for undergraduate and graduate students majoring in allied health, business, economics, and life sciences.

**Applied Linear Regression Models** Michael H. Kutner, Chris J. Nachtsheim, John Neter, 2003-09 Kutner, Neter, Nachtsheim, Wasserman Applied Linear Regression Models 4e ALRM4e is the long-established leading authoritative text and reference on regression.
