Kaisan, Youssef Alammari, 2019-03-07 The automotive industry is one of the largest and most important industries in the world. Cars, buses, and other engine-based vehicles abound in every country on the planet, and it is continually evolving with electric cars, hybrids, self-driving vehicles, and so on. Technologies that were once thought to be decades away are now on our roads. Right now, engineers, technicians, and managers are constantly needed in the industry, and often they come from other areas of engineering, such as electrical engineering, process engineering, or chemical engineering. Introductory books like this one are very useful for engineers who are new to the industry and need a tutorial.
