Contractor Exam Prep One Exam Prep, 2019-04-15 Test Taking Techniques Book Overviews Highlight and Tab Instructions Hundreds of Test Questions Math Review Test Scope Approved References *Shield Construction Techniques in Tunneling* Kui Chen, Jiangka Wang, Shengjun Jiao, 2021-02-05 *Shield Construction Techniques in Tunneling* presents the latest on this fast, environmentally friendly, and relatively safe construction technique, reflecting on its technical risks and challenges as seen in China. Sections introduce the type of shields, the history of the technique, shielding principles, selection, management, the latest techniques in operation, engineering cases, discuss construction in gravel, soft soil, composite, and rock strata, and present video clips of construction that are accessible through QR codes embedded in the text. The book combines theory and practical experience, giving the reader unique insights into shield equipment and construction techniques. The shield tunneling technique is being used very widely, particularly in China, which is building urban rail transit systems at an unparalleled scale and speed. The use of tunneling shields provides a fast, relatively safe, and ecologically friendly method for the construction of tunnels. However, a number of incidents have shown the risks involved in tunnelling through geologically complex areas. Gives the principles and practice of shield construction techniques, including shield selection and operation. Demonstrates the latest technologies in shield construction that can be applied in practice. Reflects on the technical risks and challenges of shield construction based on extensive use of the technique for tunnel construction in China. Discusses challenges in construction in gravel, soft soil, composite, and rock strata. Provides engineers with applicable insights into shield equipment and construction techniques. **eWork and eBusiness in Architecture, Engineering and Construction**
