It is considered by many as the single most important work in the gothic vampire horror genre. *Dracula*, while not the first appearance of the vampire in literature, is certainly the work that is most readily identified with the vampire genre and has spawned countless imitations and references. The novel is set sometime in the late 19th century and begins by being told from the perspective of Jonathan Harker. Harker is a young English lawyer who is traveling to the castle of Count Dracula to perform some legal services for the Count. Harker, upon meeting Count Dracula, finds him a strange and eerie man and will soon learn his dark secret. **The Vampire in Folklore, History, Literature, Film and Television**, 2015-09-18. Redefining Adaptation Studies Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 Since films were first produced adapted works have predominantly borrowed primarily from traditional texts such as novels and plays Likewise the study of film adaptations has also been fairly traditional rarely venturing beyond a comparison of the source material to its often less revered counterpart Redefining Adaptation Studies breaks new ground in showing the range of possibilities that transcend the literature film paradigm These essays focus on the idea of adaptation and what it means in different socio political contexts Above all this collection shows how cultural and political factors determine the meaning of the term and its potential for developing new approaches to learning The contributors to this volume look at adaptation in different contexts and develop new ways to approach adaptation not just as a literature through film issue but as something which can be used to develop other skills such as creative writing and personal and social skills Aimed at teachers in high schools and universities at the under and postgraduate levels this volume not only suggests how adaptation might be used in different disciplines but how it might improve the learning experience for teachers and students alike
