The Urban Planetary and Tokyo Modernity Christophe Thouny,2023-12-15 The Urban Planetary and Tokyo Modernity Dwelling in Passing analyzes everyday experiences in Tokyo during the 1910s and 1920s

showing how urban literature and urban ethnography both tried to come to terms with an emerging planetary situation defined by both ongoing movement and an intensification of local experiences This book argues that modern urban experiences are not primarily a question of alienation consumerism or national life but first one of dwelling and in particular a dwelling in passing Looking at the work of the Japanese urban ethnographer Kon Wajiro in relation to early 20th century literary mappings of Tokyo in Japanese literature such as Mori Ogai s 1912 novel Youth to Tayama Katai s 1916 The Tokyo Near Suburb Christophe Thouny argues for the need to reconsider these texts in terms of a speculative genealogy of local answers to an insistent planetary situation

Real Time Visual Effects for the Technical Artist Chris Roda,2022-03-13 Visual effects VFX are one of the most complicated components of feature film and television creation With advancements in such technologies as Ray Tracing and Virtual Reality the visual quality of the real time rendering engine is now rivaling feature film Real time rendering requires years of programming experience with advanced understanding in math and physics As the power of the real time rendering engine improves so too do the interfaces for VFX creation With limited technical understanding artists can create VFX with the push of a button and tug of a slider As powerful as the interfaces are they can only expose a portion of the true potential of the rendering engine Artists are limited by their understanding of the engine interface Real Time Visual Effects for the Technical Artist is written for digital artists to explain the core concepts of VFX common in all engines to free them from interface bounds Features Introduces the reader to the technical aspects of real time VFX Built upon a career of more than 20 years in the feature film VFX and the real time video game industries and tested on graduate and undergraduate students Explores all real time VFX in four categories in camera effects in material effects simulations and particles This book is written to complement undergraduate or graduate level courses focused on the fundamentals of modern real time VFX Chris Roda is a Technical Art instructor at the Florida Interactive Entertainment Academy FIEA a graduate degree program in interactive real time application development at the University of Central Florida Early in his career Chris was a visual effects artist in the film and television industries where he contributed visual effects for films such as Spider Man Titanic and The Fifth Element Before coming to FIEA Chris was a CG Supervisor at Electronic Arts where he worked on video game titles such as NCAA Football and Madden NFL Football In addition to teaching Chris works on generating tools and pipelines for the creation of immersive experiences the amalgamation of the narrative of films the interactivity of video games and the immersion of theme parks
