Iron John:

Iron John Robert Bly, 1992 n a fascinating examination of myth literature psychology and anthropology Newsday National Book Award winning poet and translator Robert Bly offers nothing less than a new vision of what it is to be a man Important and timely New York Times Book Review From the Trade Paperback edition **The Pillow & the Key** Robert Bly, 1987

Iron John Robert Bly, 1992 *From Panthers to Promise Keepers* Judith Lowder Newton, 2005 From Panthers to Promise Keepers draws on intimate observations of the men and networks who were involved in what some have called Othe menOs movementO and tells us why these networks mattered Focusing on the decades between 1950 and 2000 it argues that while public structural change is necessary for gender equality getting men involved in efforts at social justice may well depend on their making changes with respect to feelings and with respect to their unconscious fears and anxieties as well *Yoga Journal* , 1991-05 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty **Fairy Tale as Myth/myth as Fairy Tale** Jack Zipes, Explores the historical rise of the literary fairy tale as genre in the late seventeenth century In his examinations of key classical fairy tales Zipes traces their unique metamorphoses in history with stunning discoveries that reveal their ideological relationship to domination and oppression Tales such as Beauty and the Beast Snow White and the Seven Dwarves and Rumpelstiltskin have become part of our everyday culture and shapers of our identities In this lively work Jack Zipes explores the historical rise of the literary fairy tale as genre in the late seventeenth century and examines the ideological relationship of classic fairy tales to domination and oppression in Western society The fairy tale received its most mythic articulation in America Consequently Zipes sees Walt Disney s Snow White as an expression of American male individualism film and literary interpretations of L Frank Baum s The Wizard of Oz as critiques of American myths and Robert Bly s Iron John as a misunderstanding of folklore and traditional fairy tales This book will change forever the way we look at the fairy tales of our youth **Yoga Journal** , 1991-05 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty **The B. C. Mining Exchange and Investor's Guide and Mining Tit-bits** , 1904 **The Politics of Manhood** Michael Kimmel, 2009 A much needed often startling debate on the personal and political dimensions of masculinity American Masculinities: A Historical Encyclopedia Bret Carroll, 2003-10-14 This is a highly recommended purchase for undergraduate medium sized and large public libraries wishing to provide a substantial introduction to the field of men s studies Reference User Services Quarterly

Pleasing layout and good cross references make Carroll's compendium a welcome addition to collections serving readers of all ages. Highly recommended CHOICE. An excellent index, well chosen photographs and illustrations, and an extensive bibliography add further value. American Masculinities is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well. American Reference Books Annual. American Masculinities: A Historical Encyclopedia is a first of its kind reference detailing developments in the growing field of men's studies. This up to date analytical review serves as a marker of how the field has evolved over the last decade especially since the 1993 publication of Anthony Rotundo's American Manhood. This seminal book opened new vistas for exploration and research into American History, society and culture. Weaving the fabric of American history, American Masculinities illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies. Seeing U.S. history in terms of gender archetypes, readers will gain a richer and deeper understanding of America's democratic political system, domestic and foreign policies and capitalist economic system as well as the private sphere of the home and domestic life. The contributors to American Masculinities share the assumption that men's lives have been grounded fundamentally in gender, that is in their awareness of themselves as males. Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era. Rather, this important work delves into the psychological core of manhood which is shaped not only by biology but also by history, society and culture. Encapsulating the current state of scholarly interpretation within the field of Men's Studies, American Masculinities: A Historical Encyclopedia is designed to help students and scholars advance their studies, develop new questions for research and stimulate new ways of exploring the history of American life.
