Effective Talent Management Mark Wilcox, 2016-06-10 Effective talent management is about aligning the business's approach to talent with the strategic aims and purpose of the organisation. The core rationale of any talent strategy should be to have a direct positive impact on the organisation's goals but in many cases this is not so. The ideas, principles and approaches outlined here will enable the reader to understand the strategic nature of talent and design a response that meets the needs of their own organisation. Case studies are used to illustrate the concepts and proven methodologies guide the day-to-day practice of the reader. The content will link the strategic intent of HR with the practical actions it takes to make a positive impact on the business's results. The author begins by examining the disconnected nature of talent management in many organisations, how at times it has been a response to trends and seen by many as a bolt-on to HR and he proposes a different model, one that links clearly the development of a talent strategy with the achievement of a business strategy. Mark Wilcox summarises succinctly the case for a more strategic approach to talent management, one directly linked to business performance. He concludes that the time is now right for talent management and therefore many HR managers to move from a functional support role to one with a direct strategic impact on the business.

Managing Built Heritage

Stephen Bond, Derek Worthing, 2016-05-23 This new edition examines management of built heritage through the use of values-led decision making based on an understanding of the significance of the cultural asset. It considers how significance is assessed and used as an effective focus and driver for management strategies and processes. The authors consider key policies and procedures that need to be implemented to help ensure effective management. The book will be useful for specialists in built heritage conservation, officers, heritage managers, architects, planners, engineers and surveyors, as well as for facilities and estates managers whose building stock includes protected or designated structures or buildings in conservation or other historic areas. Describes management strategies and tools for a wide range of built heritage assets. A reflective and informative guide on current conservation management explains how understanding and using conservation values. Significance is essential to the protection of the built heritage. Uses real-life examples to draw out best practice.
