Basic Business Statistics Dean P. Foster,Robert A. Stine,Richard P. Waterman,2001-06-27 Preface Statistics is seldom the most eagerly anticipated course of a business student It typically has the reputation of being a boring complicated and confusing mix of mathematical formulas and computers Our goal in writing this casebook and the companion volume Business Analysis Using Regression was to change that impression by showing how statistics yields insights and answers interesting business questions Rather than dwell on underlying formulas we show how to use statistics to answer questions Each case study begins with a business question and concludes with an answer to that question Formulas appear only as needed to address the questions and we focus on the insights into the problem provided by the mathematics The mathematics serves a purpose The material in this casebook is organized into 11 classes of related case studies that develop a single key idea of statistics The analysis of data using statistics is seldom very straightforward and each analysis has many

nuances Part of the appeal of statistics is this richness this blending of substantive theories and mathematics For newcomers however this blend is too rich and they are easily overwhelmed and unable to sort out the important ideas from nuances Although later cases in these notes suggest this complexity we do not begin that way **Basic Business Statistics** Mark L. Berenson, David M. Levine, Timothy C. Krehbiel, David F. Stephan, 2011-08 ALERT Before you purchase check with your instructor or review your course syllabus to ensure that you select the correct ISBN Several versions of Pearson's MyLab check with the seller before completing your purchase Used or rental books If you rent or purchase a used book with an access code the access code may have been redeemed previously and you may have to purchase a new access code Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code Check with the seller prior to purchase
