Maake, 1996 *Lima*, 1978 **Research in African Literatures**, 2002 Vol 1 spring 1970 include A Bibliography of American doctoral dissertations on African literature compiled by Nancy J Schmidt **A Survey of the Minority Languages of Zimbabwe** Simooya Jerome Hachipola, 1998 Zimbabwe is one of the few countries in the region with no comprehensive information on its language situation. This book seeks to fill the gap. Language policy in Zimbabwe has evolved around the three official languages: English, Ndebele and Shona. The author, a lecturer in Bantu linguistics at the University of Zimbabwe, highlights the status of the indigenous minority languages by identifying communities speaking minority languages, their locations, and the role minority languages have played in the education system and in the media. Languages covered are Kalanga, Hwesa, Sotho, Shangani, Tsonga, Tonga of Mudzi District, Venda, Tonga, Chikunda, Doma, Chewa, Nyanja, Khoisan, Tshwawo, Barwe, Tswana, Fingo, or Xhosa, Sena, and Nambya. The author also gives recommendations of how minority languages may be incorporated into future language policy.

Institute of Library Research, University of California, Berkeley, 1972 African Literature G. M. M. Grobler, E. M. Briers, 1993 This book aims to provide a valuable addition to the limited body of reference books on African literature. Literary research on African languages has grown steadily over the years and it has become increasingly difficult for students and scholars to keep track of developments in this field. This publication provides an overview of research on African language literatures between 1908 and the middle of 1991. It covers the Nguni languages: Zulu, Xhosa, Swati, Ndebele, the Sotho languages: Southern Sotho, Northern Sotho, Tswana, and Tsonga, Venda, and Shona.

South Africa, 1980 **[Re]Gained in Translation, Volume 1-2** Sabine Dievenkorn, Shaul Levin, 2024-02-26 Volume 1 Translations of the Bible take place in the midst of tension between politics, ideology, and power. With the theological authority of the book as God's Word, not focusing on the process of translating is stating the obvious. Inclinations, fluency, and zeitgeist play as serious a role as translators' personal faith and worldview, as do their vocabulary, poetics, and linguistic capacity. History has seen countless retranslations of the Bible. What are the considerations according to which Biblical retranslations are being produced in current 21st-century contexts? From retranslations of the Hebrew Bible to those of the Old and New Testaments to mutual influences of Christian and Jewish translational traditions, the papers collected here all deal with the question of what is to be re-gained with the production of a new translation where, at times, many a previous one has already existed. Volume 2 Times are changing, and with them the norms and notions of correctness. Despite a widespread belief that the Bible as a sacred original only allows one translation, if any, new translations are constantly produced and published for all kinds of audiences and purposes. The various paradigms marked by the theological, political, and historical

correctness of the time group and identity and bound to certain ethics and axiomatic norms are reflected in almost every current translation project Like its predecessor the current volume brings together scholars working at the intersection of Translation Studies Bible Studies and Theology all of which share a special point of interest concerning the status of the Scriptures as texts fundamentally based on the act of translation and its recurring character It aims to breathe new life into Bible translation studies unlock new perspectives and vistas of the field and present a bigger picture of how Bible re translation works in society today
